PREFACE

The Tennessee Administrative Register (T.A.R) is an official publication of the Tennessee Department of State. The T.A.R. is compiled and published monthly by the Department of State pursuant to Tennessee Code Annotated, Title 4, Chapter 5. The T.A.R contains in their entirety or in summary form the following: (1) various announcements (e.g. the maximum effective rate of interest on home loans as set by the Department of Commerce and Insurance, formula rate of interest and notices of review cycles); (2) emergency rules; (3) proposed rules; (4) public necessity rules; (5) notices of rulemaking hearings and (6) proclamations of the Wildlife Resources Commission.

Emergency Rules are rules promulgated due to an immediate danger to the public health, safety or welfare. These rules are effective immediately on the date of filing and remain in effect thereafter for up to 165 days. Unless the rule is promulgated in some permanent form, it will expire after the 165-day period. The text or a summary of the emergency rule will be published in the next issue of the T.A.R. after the rule is filed. Thereafter, a list of emergency rules currently in effect will be published.

Proposed Rules are those rules the agency is promulgating in permanent form in the absence of a rulemaking hearing. Unless a rulemaking hearing is requested within 30 days of the date the proposed rule is published in the T.A.R., the rule will become effective 105 days after said publication date. All rules filed in one month will be published in the T.A.R. of the following month.

Public Necessity Rules are promulgated to delay the effective date of another rule that is not yet effective, to satisfy constitutional requirements or court orders, or to avoid loss of federal programs or funds. Upon filing, these rules are effective for a period of 165 days. The text or summary of the public necessity rule will be published in the next issue of the T.A.R. Thereafter, a list of public necessity rules currently in effect will be published.

Once a rule becomes effective, it is published in its entirety in the official compilation-Rules and Regulations of the State of Tennessee. Replacement pages for the compilation are published on a monthly basis as new rules or changes in existing rules become effective.

Wildlife Proclamations contain seasons, creel, size and bag limits, and areas open to hunting and/or fishing. They also establish wildlife and/or public hunting areas and declare the manner and means of taking. Since Wildlife Proclamations are published in their entirety in the T.A.R., they are not published in the official compilation-Rules and Regulations of the State of Tennessee.

Back Issues - Some back issues of the Tennessee Administrative Register are available. Please send $1.50 per issue along with the volume, number and date you wish to order to the address in the back of this issue.

Back issues presently available start with the August, 1975 edition. The mailing address of the Division of Publications is shown on the order form in the back of each issue.

3. Background:

Waste Management, Inc. of Tennessee (WMI) owns and operates the Southern Services Landfill in Nashville, Tennessee. On January 27, 2004 the Tennessee Department of Environment and Conservation (TDEC) issued to WMI an Aquatic Resource Alteration Permit (ARAP) and Certification per Section 401 of the Clean Water Act authorizing the filling of 1.25 acres of wetlands created for mitigation of previous impacts and the filling of approximately 2,242 feet of stream. The petitioners filed a request for Declaratory Order with the Water Quality Control Board (Board) challenging the validity of the permit. On October 25, 2005 the Board decided to conduct a contested case hearing on the issue in accordance with T.C.A. § 4-5-225.

4. Summary of the relief requested:

The Petitioners have requested a ruling from the Board declaring that the Southern Services ARAP/401 permit is invalid due to lack of public notice and conflict with previous permitting/certifications for the same
ANNOUNCEMENTS

Petitioners further request that the Board direct TDEC to cease any further attempts to grant or modify any ARAP or 401 Certification pertaining to the landfill until entry of the aforementioned ruling. Finally, Petitioners request that the Board stay the effect of any and all permits and/or certifications related to this matter pending the Board’s final decision on the validity of the January 27, 2004 permit.

If you are interested in intervening or participating in this case in any way or think that you may be affected by the possible outcome of this case, you must file a Petition to Intervene, stating your specific interest(s) in the case and your legal position/argument regarding those interests.

DEPARTMENT OF FINANCIAL INSTITUTIONS – 0180

ANNOUNCEMENT OF MAXIMUM EFFECTIVE RATE OF INTEREST

The Federal National Mortgage Association has discontinued its free market auction system for commitments to purchase conventional home mortgages. Therefore, the Commissioner of Financial Institutions hereby announces that the maximum effective rate of interest per annum for home loans as set by the General Assembly in 1987, Public Chapter 291, for the month of November 2005 is 8.94 percent per annum.

The rate as set by the said law is an amount equal to four percentage points above the index of market yields of long-term government bonds adjusted to a thirty (30) year maturity by the U. S. Department of the Treasury. For the most recent weekly average statistical data available preceding the date of this announcement, the calculated rate is 4.94 percent.

Persons affected by the maximum effective rate of interest for home loans as set forth in this notice should consult legal counsel as to the effect of the Depository Institutions Deregulation and Monetary Control Act of 1980 (P.L. 96-221 as amended by P.L. 96-399) and regulations pursuant to that Act promulgated by the Federal Home Loan Bank Board. State usury laws as they relate to certain loans made after March 31, 1980, may be preempted by this Act.

EMERGENCY RULES

EMERGENCY RULES NOW IN EFFECT

FOR TEXT OF EMERGENCY RULE SEE T.A.R. CITED

1360 - Department of State - Division of Charitable Solicitations - Emergency rules regarding procedure for filing applications, amendments, and financial accounting reports for organizations exempt from federal taxation, Chapter1360-3-2 Procedures for Operating Charitable Gaming Events, 9 T.A.R., Volume 31 Number 9 (September 2005) Filed August 11, 2005; effective January 23, 2006. (08-14)
Pursuant to T.C.A. § 4-5-208, the Tennessee Petroleum Underground Storage Tank Board is promulgating emergency rules addressing nonmetallic underground piping connected to petroleum underground storage tanks. The emergency rules are necessary to prevent the use of nonmetallic flexible piping that does not meet the Underwriters Laboratories revised standard (UL 971, July 1, 2005) for nonmetallic piping in the state of Tennessee for new underground storage tank system installations and/or for replacement of existing underground piping, so that releases of petroleum to the environment can be prevented.

The Tennessee Petroleum Underground Storage Tank Board has made a finding that there is an emergency creating a danger to public health, safety and the environment as well as a threat of increased expenditures from the Tennessee Petroleum Underground Storage Tank Fund. The nature of this danger is such that the use of any other form of rulemaking would not adequately protect the public.

Underwriters Laboratories issued a revised standard (UL 971) for nonmetallic piping on July 1, 2005. Hundreds of underground storage tank facilities in the United States have experienced problems with nonmetallic flexible piping that does not comply with the revised standard (UL 971). These problems range from early detection of visible changes in the appearance of the piping to actual releases of petroleum products into the environment due to piping deterioration. Some states have already taken action to prevent the future use of nonmetallic flexible piping that does not comply with the revised standard (UL 971). Several other states are in the process of putting such requirements in place. Three of these states are in the southeastern United States, two of them share a border with Tennessee. As the marketplace for non-compliant piping is decreased one state at a time, those states that do not have restrictions in place could become the marketplace of last resort for companies with existing stock of nonmetallic flexible piping that does not comply with the revised standard (UL 971). Without an emergency rule to eliminate the use of this piping in Tennessee, there could be many more underground storage tank facilities in Tennessee with this non-compliant underground piping conveying petroleum products into and out of petroleum underground storage tanks.

Therefore, unless emergency rules that establish requirements for nonmetallic flexible piping are adopted, there could be an increased risk to human health, safety and the environment due to the continued use of certain types of nonmetallic flexible piping. Furthermore, the Tennessee Petroleum Underground Storage Tank Fund would be adversely impacted due to clean-up costs associated with releases to the environment from nonmetallic flexible piping that does not comply with the revised standard (UL 971).

   (i) Piping installed on or after the effective date of this rule shall meet or exceed the Standard for Safety established by Underwriters Laboratory in UL 971 - “Non-Metallic Underground Piping for Flammable Liquids”, July 1, 2005. This requirement shall apply to all new and/or replacement piping.

   (ii) Pipe marking or labeling shall comply with the Underwriters Laboratory standard referenced in subpart (i) of this part. Piping shall, at a minimum, be permanently and legibly marked with the following information at ten (10) foot intervals:

       (I) The manufacturer’s name, trade name, trademark, or other information that identifies the manufacturer;

       (II) Manufacturing date, or a verifiable date code, accurate to at least the quarter of a year in which the pipe was manufactured;

       (III) The nominal size of the pipe and a number identifying the pipe, such as a catalog, model or part number;

       (IV) The maximum pressure rating (psig) and the statement: Underground Use Only;

       (V) The type of pipe system(s), which may be abbreviated, and which may include, but not be limited to:

           I. Primary Carrier;

           II. Secondary Containment;
III. Integral Primary/Secondary;

IV. Normal Vent; and/or

V. Vapor Recovery;

(VI) The flammable liquid group rating(s), which may be abbreviated, and which may include, but not be limited to:

3. The piping is constructed of metal without additional corrosion protection measures provided that:

   (i) The piping is installed at a site that is determined by a corrosion expert to not be corrosive enough to cause it to have a release due to corrosion during its operational life; and

   (ii) Owners and/or operators maintain records that demonstrate compliance with the requirements of subpart (b)3(i) of rule 1200-1-15-.02(1) for the remaining life of the piping; or

EMERGENCY RULES

THE TENNESSEE DEPARTMENT OF HUMAN SERVICES - 1240
CHILD SUPPORT SERVICES DIVISION

STATEMENT OF NECESSITY REQUIRING EMERGENCY RULES

The Tennessee Department of Human Services implemented new Income Shares Child Support Guidelines on January 18, 2005 in Chapter 1240-2-4 of the Department’s rules which considers the income of both parents. These Guidelines replaced Child Support Guidelines that were based on a Flat Percentage model which considered only the income of the obligor parent.

Prior to filing a final version of the new Child Support Guidelines, the Department engaged in extensive meetings and discussions with various stakeholders in the child support community. During these discussions, a concern was repeatedly expressed that, upon implementation of the new Guidelines methodology, if nothing was done to manage the manner in which existing child support orders could be modified, the change, in and of itself, might result in relatively significant increases or decreases in existing orders due solely to a change in the formula under the new methodology for calculating child support. Additionally, Tennessee courts would be subjected to an unusually high volume of requests for modification by parents seeking to improve their respective financial positions by modifying the amount of their existing child support order using the new Guidelines methodology.

In order to alleviate this concern, the Department agreed to limit, until January 1, 2006, the ability to modify existing child support orders by adding additional requirements to the previous criteria for a “significant variance” that is required to permit modification of an existing child support order. The previous criteria for modification of an existing order required only a fifteen percent (15%) difference between the existing and proposed orders.

In April 2005, after implementation of the new Guidelines, the Department created an Income Shares Advisory Committee to address any questions and concerns that may have arisen following application of the new rules to specific child support cases that had been litigated since the rules were implemented, and to make recommendations for possible improvements based on those experiences. Additionally, by operation of Senate Bill 707/House Bill 122 (2005), the Advisory Committee is required to report its findings and recommendations to the Senate Judiciary Committee and the House Children and Family Affairs Committee by no later than February 15, 2006.

In considering the basis for modification of child support orders, the Advisory Committee recommended that the current additional requirements noted above for establishing a significant variance be added permanently to the definition. Members of the Committee have expressed concern about the impact of a modification in individual child support cases, based solely on the difference between the methodology of the former Flat Percentage of Income guidelines and the methodology of the current Income Shares guidelines. Members
have found that application of the new Income Shares Guidelines methodology to orders established under the previous guideline model may result in a significant change in the amount of the child support obligation due only to the change in methodologies, with the potential of imposing great hardship on the obligee (a/k/a Primary Residential Parent or PRP) whose child support has been greatly decreased or on the obligor (ARP) whose obligation has been greatly increased. In the opinion of the Committee, the potential impact of this hardship will be greatly diminished by limiting the availability of modifications by continuation of the existing criteria.

In addition, in the estimation of the Committee, this change is necessary to, again, limit an expected high volume of petitions seeking modification of child support orders that has been anticipated throughout this year, after the additional criteria expire on December 31, 2005.

In order to meaningfully implement this recommendation, and thereby greatly limit the hardship imposed on children, parents, and the Tennessee court system, a change to the existing Guidelines must be made prior to January 1, 2006, the date when the additional significant variance criteria will cease to apply. From the date the Committee made the recommendation, September 15, 2005, the Department had one hundred seven (107) days to complete a rule change. The rulemaking hearing process would require a minimum of one hundred twenty (120) days to promulgate a permanent rule, thus, the criteria limiting the ability to modify child support orders would expire before the change to the rule to make permanent the existing limitations would become effective.

Additionally, if this recommended and important change to the rule is done through the rulemaking hearing process, significant confusion to litigants, the bar, and the courts will be created by allowing the expiration of the existing limits on the ability to modify child support orders only to later modify the rules to re-establish the limiting criteria as recommended by the Committee. This result, necessitated by the rulemaking hearing process, would create a period of short duration in which orders may be modified with less proof, followed very shortly by a permanent rule which re-establishes the more stringent previously existing criteria. In addition to confusion, the intervening period would create the significant likelihood of delays in the consideration of petitions for modification as parties seek real or perceived advantages from delay. Conversely, the intervening period may create a rush to the courthouse to file petitions for modification to take advantage of the absence of the limiting criteria. Either circumstance further presents the serious potential of increased litigation regarding when and whether petitions for modification of child support orders could be considered under the less restricted criteria during the intervening period. These delays and the additional and unnecessary litigation will serve to disrupt the orderly operation of the child support system on which thousands of children depend, will result in unnecessary increased volume for courts and unnecessary added litigation expenses to the parties.

Accordingly, under the Administrative Procedures Act, emergency rules are the only viable mechanism available for making this important change to the Child Support Guidelines and for preventing potential serious confusion and unnecessary litigation.

The Department, therefore, finds that an immediate danger to the public welfare exists, and the nature of this danger is such that the use of any other form of rulemaking authorized by Tennessee Code Annotated, Section 4-5-201 et seq., would not adequately protect the public.

1240-2-4-.05, Modification of Child Support Orders, is amended by deleting paragraph (7) in its entirety.

Authority: T.C.A. §§ 4-5-202; 36-5-101(a)(1) and (e); 36-5-103(f); 71-1-105(12), (16); 71-1-132; 42 U.S.C. § 667, 45 C.F.R. §§ 302.56, 303.8.

The emergency rules set out herein were properly filed in the Department of State on the 14th day of October, 2005, and will be effective from the date of filing for a period of 165 days. These emergency rules will remain in effect through the 28th day of March, 2006. (10-16)
STATEMENT OF NECESSITY REQUIRING AN EMERGENCY RULE

For a copy of the emergency rule, contact Gary W. Cookston, Director, Division of Boiler and Elevator Inspection, Tennessee Department of Labor and Workforce Development, Andrew Johnson Tower, 3rd Floor, 710 James Robertson Parkway, Nashville, Tennessee 37243-0663, telephone: (615) 532–1929.

Chapter 0800-3-15 has been assigned to the Tennessee Department of Labor and Workforce Development for its emergency rule regarding the standards for the emergency keyed lock box.

There were numerous reports that a fire at a Nashville nursing home in September 2003 took the lives of many and critically injured others. Firefighters were hampered in their efforts because the elevators were recalled to the lobby floor with the doors open. The fire was away from the elevators and on the third floor; the key was on the fourth floor. If the elevators had been operational, the fire may not have been so tragic.

The General Assembly took the lead to prevent such a tragedy in the future by enacting Public Chapter 404. Under the legislation, each hospital, recuperation center, nursing home, residential hospice, home for the aged, residential HIV supportive living facility, assisted-care living facility or ambulatory surgical treatment center licensed under Title 68, Chapter 11 of the Tennessee Code Annotated, all student dormitories and other university housing with functioning elevators operating under the control of the Board of Trustees of the University of Tennessee and the Board of Regents, and each state-owned public building under the Department of General Service’s control, including the state capitol and capitol annexes must ensure that an emergency keyed lock box is installed. In addition, the Tennessee Department of Labor and Workforce Development was required to approve the general standards for the design of an emergency keyed lock box. The Department has approved the general standards for the emergency keyed lock box.

In the event of a fire emergency, time is critical in saving lives. Because of the immediate danger to the public health, safety, and welfare, the Department is promulgating the emergency rule. Firefighters and state elevator inspectors will have immediate access to the emergency keyed lock boxes and ultimately the elevators. The emergency keyed lock box shall be permanently surface mounted seventy-two inches (72") from the floor to the center of the box at each bank of elevators at the main egress of the building, be operable by a universal key no matter where such box is located within the state of Tennessee, and shall contain only fire service keys and drop keys to the appropriate elevators. For additional protection, the universal key shall be provided by vendors only to firefighters and state elevator inspectors.

(3) Exempt Purposes. For purposes of clarification, these regulations adopt the following language of the Internal Revenue Service: The exempt purposes of §501 (c)(3) organizations are charitable, religious, educational, scientific, literary, testing for public safety, fostering national or international amateur sports competition, and the prevention of cruelty to children or animals. The term charitable is used in its generally accepted legal sense and includes relief of the poor, the distressed, or the underprivileged; advancement of religion; advancement of education or science; erection or maintenance of public buildings, monuments, or works; lessening the burdens of government; lessening of neighborhood tensions; elimination of prejudice and discrimination; defense of human and civil rights secured by law; and combating community deterioration and juvenile delinquency.

1360-3-3-.06 DESCRIPTION OF THE GAMES.

Relevant information should include the details of what the game is, how it is operated by the organization and how it is played by a contestant or player.

Unless otherwise provided by its by-laws, the meeting may be conducted through the use of any means of communication by which all directors participating may simultaneously hear each other during the meeting. 1360-3-3-.09 AMENDMENT PROCESS- CONFLICTING LOCATIONS, OTHER AMENDMENTS.

(1) Timely Communication. In addition to the requirements §§3-17-104 and 3-17-105(b), all organizations must provide either an e-mail address or fax number in order to facilitate speedy communication. Organizations must respond to requests from the Secretary within 10 days but in no event shall a response be received later than 24 hours prior to any filing deadline.

(2) Form of Amendment. An amendment form (SOS Form No. SS-6065) shall be used to notify the Secretary of a change of location, or any other amendment. An organization may fax a completed amendment form to the Charitable Gaming Section at 615-253-5173. Forms may be obtained from the Charitable Gaming Section and are also available on the Secretary of State’s website: http://www.state.tennessee.gov/sos/charity/gaming.htm.

(3) Filing of Amendments. Amendments shall be accepted for filing until 12:00 Noon, February 1 of each year subsequent to the filing of the application. The date and time stamp endorsement of the Secretary shall determine whether an amendment is timely filed. In accordance with the provisions of §3-17-105(d)(2)(A), the Secretary shall have no authority to accept, and shall not accept, an annual event application, or an amendment thereto, submitted after the application deadline has passed for the appropriate annual event period.

(4) Annual Event Location Changes:

(a) Only two annual events can be held at any location during a calendar month. Only one organization can use a location that has previously been approved for another organization during that month. Example: A organization has an event at 1 Highway, Anytown, Tennessee on July 4, 2004. A second organization has also scheduled an annual event in July at that location. No other organization can use the same location for its event during the month of July, 2004, even if the event is on a different date.
(b) An address which has multiple suites or units at the same location shall be counted as one location for purposes of choosing an annual gaming event location. If it becomes necessary for an organization to change the date of its annual gaming event due to a conflict or unavailability of a chosen location, an amendment form (SOS Form No. SS-6065) must be filed with the Secretary specifying the location which caused the conflict and the full address/location of the new proposed location which has been chosen. Amendments shall not be accepted for filing after the amendment deadline.

(5) Annual Event Date Changes:

(a) Conflicting Dates. Only two organizations shall be allowed to hold an annual gaming event at a facility during any calendar month. Annual gaming event dates will be approved on a first-come, first-serve basis as determined by the date stamp on the application. If the Secretary receives an application which designates the same location for an event which has already been approved for two other organizations, notice will be provided to the organization of the conflict. In order to expedite the notice process, the Secretary will provide notice by e-mail or facsimile message. If an organization must change its annual gaming event date in order to correct or avoid a conflict with another organization, an amendment form must be filed with the Secretary specifying the event date which caused the conflict, the full address/location of the proposed event and the new date which has been chosen. Amendments shall not be accepted for filing after the application deadline. Because amendments cannot be accepted after the application deadline, an organization should plan carefully and file its application well in advance of the October 31st deadline for receipt of applications and the February 1st deadline for receipt of amendments so that a change of event date will not be barred by the filing deadline.

(b) Changes of Event Date within Fourteen (14) days of Event. Tennessee Code Annotated § 3-17-102 (d)(1)(A) allows an organization to hold an event within fourteen (14) days of the date listed in its application. All event date amendments must be filed with the office of the Secretary of State including changes for an event date scheduled within 14 days of the original annual event date. In addition, notice of event date changes must be filed with the local law enforcement officer. In accordance with the provisions of §3-17-102(a)(1), except as indicated above, the Secretary shall have no authority to accept, and shall not accept, an annual event application, or an amendment thereto, submitted after the application deadline has passed for the appropriate annual event period.

(c) Determining the Fourteen (14) Day Period. The fourteen (14) calendar day period prescribed by §3-17-102(d)(1)(A), within which an organization must hold an annual gaming event, may be counted beginning fourteen days prior to the event date listed in the annual event application or fourteen days after the event date listed in the annual event application.

1360-3-3-.10 CONDUCT OF THE GAMES.

(1) Advertising. Nothing in the act shall be construed as prohibiting an organization from accepting donations of advertising services. For purposes of the Act and these rules, however, granting permission to post flyers for an event on the premises of a vendor shall not be construed as donating advertising services.

(2) Ticket Sales and Sale of Similar Records. Persons under the age of eighteen (18) are prohibited from selling or purchasing tickets and similar records for charitable gaming activities.

(3) Officer(s) Responsible for Gross Receipts. The authorized organization shall duly designate an officer/officers of said organization to be in full charge and primarily responsible for the proper accounting, use and disposition of all gaming event receipts. Such officer(s) name shall appear on the list required under T.C.A.§3-17-104 (a) (20) and (21).

(4) Payment of Workers Prohibited. No commission, salary, compensation, reward, recompense, reimbursement of expenses, or gift or other consideration shall be paid directly or indirectly, to any person for conducting or assisting in the conduct of any annual gaming event except as hereinafter provided for bookkeepers or accountants who assist by rendering their professional services. No tip, gratuity or gift or other consideration shall be given or accepted by any person conducting or assisting in the conduct of an annual gaming event either directly or indirectly.

(5) Regular Salary or Wages for Employee not “Compensation”. The regular salary or wages of a regular and full time employee, or a regular but part-time employee shall not be considered to be “compensation” within the meaning of the Act when it is performed by a person who has been regularly employed by the authorized organization and when all of the following conditions are met:

(a) The position held by the employee has been created for the purposes unrelated to the conduct of the annual gaming event and the required performance of duties is generally unrelated to the annual gaming event. The employee’s contribution to an annual gaming event must be an incidental part of his or her total duties consisting of less than 10% of the total time worked for the organization; and

(b) The employee is paid on a recurring basis at a regular and established rate of pay throughout the calendar year, unrelated to the income produced by the annual gaming event; and

(c) The employee does not operate any game of chance at any function conducted by the organization but confines his or her services in connection with the annual gaming event to assisting the organization’s other employees with the overall planning and organization of the event with supervision of the supporting services for the event.

Authority: T.C.A.§§ 3-17-103(a)(5)(A)(i)(a)-(b), and 3-17-103(a)(5)(B)(i); T.C.A.§ 3-17-104(a)(20)-(21); T.C.A.§ 3-17-115(a); T.C.A.§§ 39-17-602-603.

Persons who do not receive any compensation for their duties associated with the 501(c)(3) organization shall not be subject to criminal background checks.

(3) Criteria for requiring Criminal Background Checks. Upon a determination by the Secretary that a criminal background check is required of a person in connection with an annual gaming event held by a 501 (c) (3) organization, the application of such organization shall not be considered until such background check has been completed and the results of the background check are received in the office of the Secretary of state. In the event that information is revealed in the background check which would be a violation of a provision of the Act, the Secretary shall give notice to the affected organization and allow them an opportunity to cure the disqualifying situation by disassociating such person or persons from taking any action on behalf of such organization. The organization shall submit to the Secretary, an affidavit, signed by the chief operating officer and the treasurer of the organization, setting forth what action has been undertaken by the organization to disassociate the individual/individuals.

(4) Procedure for Obtaining Criminal Background Checks. Upon notification by the Secretary that a criminal background check is required, the person notified shall take immediate steps to secure the background check. Persons who receive a request from the Secretary to submit to a criminal background check shall contact the then current state of Tennessee fingerprinting service to obtain information on the proper location and procedure for having the background check run. The current vendor for the state of Tennessee is Sylvan Identix Fingerprinting Centers. The toll free number is 1-866-226-2937. Persons must provide identifying information, the reason for being printed and name of the “Division of Charitable Solicitations, Charitable Gaming Section” as the entity for whom the prints are requested. The applicant shall be responsible for paying all costs associated with obtaining a criminal history background check.

The results of the background search will be provided directly to the Secretary of State’s Division of Charitable Solicitations, Charitable Gaming Section. Results of background checks may be challenged by contacting the TBI. A form is available for download from the TBI web site at www.tbi.state.tn.us or by contacting the TBI directly.

1640-1-19-.21 MILITARY MOBILIZATION OF ELIGIBLE STUDENTS

(1) Members of the United States Armed Services, National Guard, or Armed Forces Reserves receiving a TELS award who are mobilized for active duty during a semester that is already in progress shall be granted a personal leave of absence by the eligible postsecondary institution the student is attending and shall not have their TELS award eligibility negatively impacted.

(2) If, as a result of being mobilized, a student elects to completely withdraw from an eligible postsecondary institution, then the hours attempted during the semester will not be taken into consideration for purposes of determining future TELS award eligibility.

(3) If due to a military mobilization the student elects to receive an “incomplete” in any or all courses, the provisions of Rule 1640-1-19-.22(13) shall apply.

(4) Upon re-enrollment within one year following mobilization, the student’s TELS award eligibility will resume as if no break in enrollment had occurred and shall retain TELS award eligibility until the first of the following events:
(a) The student has earned a baccalaureate degree;

(b) The student has attempted at any postsecondary institution a total of one hundred twenty (120) semester hours, or if the student is enrolled in an undergraduate degree program required to be more than one hundred twenty (120) semester hours in length, that student is eligible for a total of one hundred thirty-six (136) semester hours attempted, or the number of hours required for graduation, whichever is less; or

(c) The sum of the number of calendar years the student attended a postsecondary institution prior to the leave of absence and the number of calendar years of attendance after the leave of absence equals five calendar years.

(5) An eligible postsecondary institution shall be authorized to consider a request for a leave of absence from a student whose spouse, child, father or mother is mobilized for active duty as a valid basis for a personal leave of absence. This request shall be made in accordance with the provisions of this rule. If the request is granted the student shall receive the same accommodations described above.

Authority: T.C.A. §§ 49-4-903, 49-4-919, and 49-4-924.

1640-1-19-.22 CALCULATION OF POSTSECONDARY CUMULATIVE GRADE POINT AVERAGE

(1) The postsecondary cumulative grade point average used to determine eligibility for a renewal of a TELS award, must be calculated by the institution the student is attending, utilizing its institutional grading policy and must be based on all credit hours attempted after high school graduation, except as otherwise provided in this rule.

(2) All credit hours attempted at all postsecondary institutions the student has attended after graduating from high school and their corresponding grades must be included in the calculation of the postsecondary cumulative grade point average, regardless of whether the receiving institution will apply the credit hours toward the student’s degree requirements. Except as provided in subparagraph (a) of this paragraph, credit hours that were repeated shall be included in the postsecondary cumulative grade point average calculation, and are counted towards the limitation on credit hours.

(a) A student shall have a one time option to repeat one course and utilize only the higher of the two grades in the calculation of their postsecondary grade point average for purposes of determining continued eligibility for a TELS award. The semester hours for both attempted courses, however, will be included in the one hundred twenty (120) limitation of semester hours.

(b) It shall be the responsibility of the student to advise the appropriate official of the eligible postsecondary institution when this option is being exercised.

(3) Credit hours attempted prior to high school graduation, completion of a home school program in Tennessee or achieve a GED, including those attempted with the Tennessee dual enrollment grant, do not count toward the limitation on semester hours provided in Rule 1640-1-19-.12(3), nor are the grades for those classes included in the postsecondary cumulative grade point average.
(4) Credit hours earned by examination are not eligible for payment with TELS awards and shall not be included in the postsecondary cumulative grade point average or counted towards the limitation on credit hours provided in Rule 1640-1-19-.12(3).

(5) Credit hours attempted as part of a diploma or certificate program of study are not considered to be college credit hours and therefore shall not be included in the postsecondary cumulative grade point average or counted towards the limitation on credit hours provided in Rule 1640-1-19-.12(3), unless those hours are accepted toward a degree.

(6) Remedial and developmental studies and independent studies courses are eligible for payment with TELS awards and shall be included in the calculation of the postsecondary cumulative grade point average and shall be counted towards the limitation on credit hours provided in Rule 1640-1-19-.12(3).

(7) Courses in which a student enrolls as an audit student for which no college credit will be received cannot be paid with a TELS award nor will the semester hours be included in the calculation of the postsecondary cumulative grade point average or in the credit hour limitation provided in Rule 1640-1-19-.12(3).

(8) Continuing education courses are not eligible for payment with TELS awards and shall not be included in the postsecondary cumulative grade point average or counted towards the limitation on semester hours provided in Rule 1640-1-19-.12(3).

(9) Students who obtain a grade change shall notify the financial aid office within thirty (30) calendar days of the grade change and request reinstatement of his/her award on a form developed by the institution for this purpose. If the grade change makes the student eligible for a TELS award, the student can be awarded retroactively in the current award year. If the grade change affects the student’s eligibility from the previous award year, the TELS award may be adjusted in the current award year. The eligible postsecondary institution shall make necessary reductions in the student’s financial aid package if the reinstatement of a TELS award results in either an over award of need based aid or exceeds the institution’s cost of attendance for any semester. If the student’s application for reinstatement is denied, he/she may appeal the decision in accordance with Rule 1640-1-19-.26.

(10) A student enrolled in a matriculating status at an eligible postsecondary institution shall qualify for TELS award payment for distance learning courses if all other eligibility requirements are met. Students may take courses through more than one eligible postsecondary institution during the same semester. Payment for the distance learning courses shall be made in the same manner as transient students as provided in Rule 1640-1-19-.24.

(11) A student enrolled in a matriculating status at an eligible postsecondary institution may qualify for TELS award payment while participating in an internship or co-op program if the student receives college credit from the internship or co-op experience and must pay tuition and fees. The semester hours shall be included in the postsecondary cumulative grade point average and count toward the limitation on credit hours as provided in Rule 1640-1-19-.12(3).

(12) A student enrolled in a matriculating status at an eligible postsecondary institution may qualify for TELS award payment while participating in an alternative study or study abroad program if all other eligibility requirements are met. The eligible postsecondary institution which is the student’s home institution must approve the alternative study or study abroad program for credit toward the student’s degree and the number of hours that will be applied toward the degree prior to the student’s departure.
(13) Courses that appear on a student’s transcript as an “incomplete” shall be considered credit hours attempted. The student’s TELS award eligibility, however, shall be determined by excluding the credit hours attributable to the course for which an “incomplete” has been assigned from the cumulative grade point average calculation.

(a) If the student fails to retain eligibility for a TELS award as a result of the calculation, but later becomes eligible when the grade for the “incomplete” course is reported, the student is eligible to receive a TELS award retroactively within the award year and shall retain eligibility. Retroactive TELS awards for previous award years shall be added to the current award year. The eligible postsecondary institution shall, however, make necessary reductions in the student’s financial aid package if the reinstatement of a TELS award results in either an over award of need based aid or exceeds the institution’s cost of attendance for any semester. It shall be the responsibility of the student to notify the financial aid office at the eligible postsecondary institution that a grade has been awarded and request that the TELS award be reinstated. Each eligible postsecondary institution shall develop a standard form for use by students to comply with this provision. If the student’s application for reinstatement is denied, he/she may appeal the decision in accordance with Rule 1640-1-19-.26.

(b) If the student retains eligibility for a TELS award as a result of the calculation, but later becomes ineligible when the grade for the “incomplete” course is reported, then the student shall be ineligible for all TELS awards. Additionally, the student shall reimburse the institution for TELS awards received in the interim.

(14) If the student is otherwise eligible to receive a TELS award, but does not receive TELS funding, or TELS funding is reduced because his or her cost of attendance is covered by other aid, all credit hours attempted that semester shall still apply to the credit hour limitation provided in Rule 1640-1-19-.12(3).

1640-1-19-.23 TRANSFER STUDENTS

(1) A TELS recipient transferring from an eligible postsecondary institution to another is eligible for a TELS award if all eligibility requirements continue to be met at the postsecondary institution at which the student is currently enrolled.

(2) Any student who was otherwise eligible for a TELS award upon completion of high school requirements based on the applicable provisions of these rules, but who enrolled in a regionally accredited out-of-state postsecondary institution upon completing high school requirements, may transfer to an eligible Tennessee postsecondary institution and receive a TELS awards. The student must from that point be continuously enrolled in an eligible postsecondary institution and meet all eligibility and retention requirements, as provided in these rules.

1640-1-19-.24 TRANSPORT STUDEMTS

A transient student is eligible to receive a TELS award if all other eligibility requirements are met and if both the home and host institutions are eligible postsecondary institutions. The home institution shall award the TELS funds to the transient student based on certification of eligibility from the host institution. The home institution shall certify to the Corporation that the student is eligible for a TELS award. Each eligible postsecondary institution shall develop a process to effectuate each provision of this rule and shall notify its students of the process and the availability of the necessary forms to comply with the requirements. At the end of the semester the host institution shall provide the student’s home institution with all information necessary for the home institution to determine continued TELS award eligibility.

Authority: T.C.A. §§ 49-4-903 and 49-4-924.

1640-1-19-.25 DENIAL OF INITIAL ELIGIBILITY – FAILURE TO TIMELY ENROLL

A student who fails to timely enroll in an eligible postsecondary institution as required by Rule 1640-1-19-.05 may be granted an exception if the student failed to meet the requirement for any reason provided for in this rule. An exception shall be granted only for medical or personal reasons. Acceptable medical or personal reasons shall include, but not be limited to, illness of the student, illness or death of an immediate family member, extreme financial hardship of the student or student’s immediate family, to fulfill a religious commitment expected of all students of that faith, or other extraordinary circumstances beyond the student’s control where timely enrollment by the student would create a substantial hardship. In the event a student’s request for an exemption for failing to timely enroll is denied, the student may appeal the decision pursuant to Rule 1640-1-19-.26.

Authority: T.C.A. §§ 49-4-903 and 49-4-924.

1640-1-19-.26 APPEAL AND EXCEPTION PROCESS

(1) Each eligible postsecondary institution shall establish an Institutional Review Panel (IRP) for the purposes of hearing appeals from decisions denying or revoking applicants’ TELS award. Each eligible postsecondary institution shall establish written procedures for an applicant or recipient to appeal a decision of an eligible postsecondary institution to deny or revoke a TELS award. These procedures shall include, but not be limited to, the establishment and composition of the IRP and the process and timelines for appeals to the IRP. Each eligible postsecondary institution shall also establish a process to ensure students applying for or receiving a TELS award are notified of the procedures to appeal the denial or revocation of a TELS award including the timeframe within which an appeal must be filed with the TELS Award Appeals Panel. No eligible postsecondary institution official rendering a decision to deny or revoke a TELS award shall participate in the appeal process for the same applicant or recipient. The IRP may award or reinstate the student’s TELS award without a hearing and shall make such determination no later than fourteen (14) calendar days after an applicant or recipient properly files an appeal. If the IRP determines that a hearing is required the IRP shall hear the appeal no later than fourteen (14) calendar days after an applicant or recipient properly files an appeal. Except where exigent circumstances exist, the IRP shall render a decision no later than seven calendar days after hearing an appeal. Such decision shall be reduced to writing and shall include a summary of the pertinent facts and issues and the panel’s decision. The IRP shall provide a copy of the written decision to the appellant as soon as practicable. For the purposes of this rule, it will be presumed that the decision was delivered to the appellant two calendar days after the decision was placed in the U.S. Postal Service addressed to the appellant’s official mailing address according to the eligible postsecondary institution’s records.
(2) The Appeals Panel shall be appointed by the Corporation's Executive Director for purpose of hearing appeals from decisions rendered by the IRPs. No official of an eligible postsecondary institution shall sit as a member of the Appeals Panel where the denial or revocation being appealed involves such official's eligible postsecondary institution. A student seeking an appeal of a decision rendered by an IRP shall request an appeal, to include a written statement outlining the basis for the appeal as well as all pertinent information related to the appeal, with the Corporation within fourteen (14) calendar days from the date that the decision was delivered to the student. A complete record of the institutional IRP hearing shall be provided to the Corporation by the student. The Appeals Panel may award or reinstate the student’s TELS award without a hearing. This decision shall be made no later than 30 calendar days after an appeal is properly filed and the record from the IRP hearing is received. If the Appeals Panel determines that a hearing is required, it shall provide the appellant with notice of the hearing date, such notice shall include the time and location of the hearing. The Appeals Panel shall hear the appeal no later than forty-five (45) calendar days after the appeal is properly filed, unless an extension is requested by the appellant and granted by the Appeals Panel. Except where exigent circumstances exist, the Appeals Panel shall render a decision no later than fourteen (14) calendar days after hearing an appeal. Such decision shall be reduced to writing and shall include a summary of the pertinent facts and issues and the panel's decision. The Appeals Panel shall provide a copy of the written decision to the appellant and the appellant's home institution as soon as practicable. The Appeals Panel is the final administrative appeal.

(3) The authority of the IRPs and the TELS Award Appeals Panel shall be strictly limited to consideration of appeals arising from eligibility determinations made by an eligible postsecondary institution or the Corporation. Neither appeals panel shall have the authority to rule on the validity of any information provided to the eligible postsecondary institution or Corporation by another entity on which its decision to deny or revoke a TELS award was based, including, but not limited to high school grade point average, ACT or SAT scores, or grades from another eligible postsecondary institution. Additionally, neither appeals panel shall have the authority to consider requests for exceptions to the high school or collegiate grade point average.

BASIS FOR HEARING

In addition to a specific proposed amendment of rule chapter 1200-3-3 which appears in a separate notice of rulemaking hearing herein, the Air Pollution Control Board is soliciting comments on broader issues associated with the secondary ambient standard for gaseous fluorides expressed as hydrogen fluoride. This hearing is authorized pursuant to TCA § 4-5-204(e) for receiving comments that could lead to development of a specific rulemaking proposal. Because the Board indicated its interest in considering a range of alternatives as listed below, there is a need to develop significant aspects of these alternatives and, more basically, to select among the alternatives prior to formulating a proposal to rule chapter 1200-3-3. Unlike the ambient standards established by Chapter 1200-3-3 for the “criteria pollutants” such as ozone, particulate matter, sulfur dioxide, and lead there is no federal ambient standard for hydrogen fluoride, nor has there ever been one. The Clean Air Act established two types of national air quality standards. Primary standards set limits to protect public health, including the health of “sensitive” populations such as asthmatics, children, and the elderly. Secondary standards set limits to protect public welfare, including protection against decreased visibility, damage to animals, crops, vegetation, and buildings.

The Tennessee Air Pollution Control Board welcomes comments on such issues as (1) whether there should be a primary standard established for gaseous fluorides expressed as hydrogen fluoride, and if so at what level should it be set; (2) if only a secondary standard is desirable, then should the standard remain the
same or be set a different level; or (3) should the Air Pollution Control Board retain a state-only secondary standard at all.

Many of these changes are proposed in response to revisions and additions published in Federal Registers that the U. S. Environmental Protection Agency (EPA) made primarily between July 1, 2004 and August 5, 2005 and on October 4, 2005, except for October 25, 2004, to the corresponding Federal Regulations. These amendments are intended to make the State’s Regulations equivalent to their Federal counterparts. They include certain technical corrections, definitions, housekeeping changes, clarifications, reference changes, typos, and other corrections.

Modifications in the federal regulations include listing K181 as hazardous nonwastewater generated from the production of certain dyes, pigments, and F D & C colorants; adding five toxic constituents to the list of hazardous constituents that serves as the basis for clarifying wastes as hazardous and establishes Land Disposal Restrictions (LDR) treatment standards for them; revising the Uniform Hazardous Waste Manifest regulations and the manifest and continuation sheet forms (Forms 8700-22 and 22a) used to track hazardous waste from generation to disposition and standardize their content and appearance; amending a variety of testing and monitoring requirements in the RCRA hazardous and non-hazardous solid waste regulations; allowing flexibility when conducting RCRA-related sampling and analysis by removing a requirement to use methods found in SW-846; and adding certain mercury containing equipment to the list of universal waste. Additional modifications include adding 2 solvents to the list of solvents whose mixtures with wastewaters are exempted from the definition of hazardous waste. Other exemptions include scrubber waters derived from the combustion of exempted solvents. Further, generators may directly measure solvent chemical levels at the “headworks” of the wastewater treatment system.

Departmental modifications include deleting certain language in Rule 1200-1-11-.02(1)(e)2 to make it equivalent to EPA’s. Further, certain definitions from the April 22, 2004 Federal Register, pages 21752 and 21753, are being added to Rule 1200-1-11-.01(2)(a). Clarifying definitions regarding frequency/time are added to Rule 1200-1-11-.01(2)(a). also being

SUMMARY OF PROPOSED REVISIONS TO RULES

The Tennessee Water Quality Control Board has initiated the rulemaking process to make revisions to Tennessee’s General Water Quality Criteria and Stream-use Classifications for Surface Waters. The federal Clean Water Act requires that these rules be reviewed and revised no less often than every three years. These regulations classify surface waters for one or more of seven designated uses and establish narrative or numerical criteria to protect water quality for each use. They also have specific provisions for the protection of high quality waters.

CHAPTER 1200-4-4
USE CLASSIFICATIONS FOR SURFACE WATERS.

Relatively few changes are being proposed for the use classifications for stream segments. The majority of these changes involve the moving of streams or stream segments from “unnamed” status to “named” status. For these streams, classified uses will be specifically identified.

In one specific set of changes, the streams in the Barren River headwaters in Sumner, Macon, and Clay counties along the Kentucky border will be separated from the streams of the Upper Cumberland watershed. As the Barren system drains to the Ohio River independent of the Cumberland River, this change will help prevent misunderstandings due to watershed boundaries.

CHAPTER 1200-4-3
GENERAL WATER QUALITY CRITERIA.

This rulemaking involves all of the sections of the rule dealing with the water quality criteria and the antidegradation policy. A number of specific changes are being proposed. Most of these changes are updates to reflect current science and other revisions recommended by the Environmental Protection Agency (EPA). Proposed revisions to this Chapter include, but are not limited to:

(1) Updates to numeric criteria for protection of fish and aquatic life. In each case, acute and chronic values will be updated to reflect the current national criteria recommended by the EPA. Substances for which new or revised criteria are being proposed include trivalent chromium, iron, lindane, tributyltin, and PCBs. Revisions will also include the adoption of a formula for calculating an instream ammonia criterion based on pH and temperature.

(2) Clarification of existing numeric fish and aquatic life criteria for dissolved oxygen and pH to simplify regionally-based exceptions.
(3) Updates to numeric criteria for protection of recreation. In each case, the “water and organisms” and “organisms only” values will be updated to reflect the current national criteria recommended by the EPA.

(4) Under recreational use, include a narrative nutrient criteria specific to conditions affecting lakes. Additionally, adopt a numeric chlorophyll criterion for two mainstem Tennessee River reservoirs shared with Alabama (Pickwick and Guntersville). In both cases, the majority of the reservoir surface area is in Alabama. For Pickwick Reservoir, the point of criteria compliance would be in Tennessee. For Guntersville Reservoir, the compliance point would be in Alabama.

(5) Under the Antidegradation Statement, create a simplified set of characteristics for identifying high quality streams. Create a category of waters called Exceptional Tennessee Waters.

(6) Extend the downstream boundary of the existing Outstanding National Resource Water (ONRW) designation for the Little Pigeon River in Sevier County. The existing boundary is the lower city limit for the town of Pittman Center. The revision would extend the boundary down to the mouth of Mill Branch, just upstream of Richardson Cove.

SUBSTANCE OF PROPOSED RULES

TENNESSEE DEPARTMENT OF ENVIRONMENT AND CONSERVATION
DIVISION OF WATER POLLUTION CONTROL

CHAPTER 1200-4-7
RULES OF THE WATER QUALITY CONTROL BOARD

AMENDMENTS

Rules 1200-4-7-.01 through .04 are amended by deleting them in their entirety and substituting in their place the following:

TABLE OF CONTENTS

1200-4-7-.01 General
1206-4-7-.02 Exemptions
1200-4-7-.03 Definitions
1200-4-7-.04 Permits

1200-4-7-.01 GENERAL

(1) These rules are promulgated in order to prevent the future pollution of state waters and to plan for the future use of such waters so that the water resources of Tennessee might be used and enjoyed to the fullest extent consistent with the maintenance of unpolluted waters, T.C.A. §69-3-102(b). Persons who wish to conduct an activity that may impact a water of the state shall consider avoidance and minimization of such impacts. When a proposed activity may result in degradation of waters, the alternatives analysis shall be part of the application process and shall include a discussion of the feasibility of all potential alternatives, plus the social and economic considerations and environmental consequences of each consistent with the requirements of Chapter 1200-4-3-.06. If impacts to the waters will occur, mitigation as set forth in part (7) of these rules must be proposed to offset any lost resource value.
(2) The Federal Water Pollution Control Act or Clean Water Act, §401 (33 U.S.C. §1341), provides that an applicant for a federal license or permit for a discharge into the waters of the United States must provide the federal licensing or permitting agency a certification from the State in which the discharge originates or will originate, and that any such discharge will comply with the applicable provisions of §§301, 302, 303, 306 and 307 of that Act.

(3) Additionally, the Tennessee Water Quality Control Act of 1977, T.C.A. §69-3-108(b)(1), provides that it is unlawful for any person, except in accordance with the conditions of a valid permit, to carry out any activity which may result in the alteration of the physical, chemical, radiological, biological, or bacteriological properties of any waters of the State, including wetlands. These activities include, but are not limited to: the discharge of dredge or fill material, dredging, stream channel modifications, water withdrawals, wetlands alterations including drainage, and other construction activities which result in the alteration of the waters of the State. State permits for these activities are either §401 Water Quality Certifications or Aquatic Resource Alteration Permits.

(4) This regulation prescribes procedures peculiar to these permits, in addition to the requirements and procedures of Chapters 1200-4-3 and 1200-4-4 of the Rules of the Water Quality Control Board and the Department of Environment and Conservation, and the Tennessee Water Quality Control Act of 1977.

Authority: T.C.A. §69-3-105(b), §69-3-108

1200-4-7-.02 EXEMPTIONS

(1) Management activities such as timber harvesting and beaver control which do not alter or adversely affect the classified uses of waters of the state are not subject to these requirements.

(2) Agriculture and forestry activities and activities necessary to the conduct thereof and lands devoted to the production of agricultural or forestry products are exempt from the requirements of the Act and these rules, unless there is a point source discharge, as provided in T.C.A. §69-3-120(g). Thus, normal farming, forestry and livestock management activities such as plowing, seeding, cultivating, minor drainage, water withdrawal for irrigation, and harvesting for the production of food, fiber, and forest products are exempt if they are part of an established (i.e., on-going) farming, forestry, or livestock management operation, unless there is a point source discharge.

(3) The Department of Agriculture provides guidance for development of best management practices (BMPs) for agriculture and forestry. One of the primary goals of these BMPs is the prevention of soil erosion and discharge of silt and sedimentation to streams. These BMPs should be followed. If silvicultural activities fail to use BMPs and a point source discharge results in water pollution, the Commissioner is authorized to issue a stop work order under P.Ch. 680 of the Acts of 2000.

(4) Existing water withdrawals on July 25, 2000 which do not adversely alter or effect the classified use of the source stream are not subject to these requirements.

Authority: T.C.A. §69-3-105(b), §69-3-108
1200-4-7-.03 DEFINITIONS

As used in this rule chapter and in any ARAP permit issued, including General Permits, the following terms have these meanings:

(1) "Act" means The Tennessee Water Quality Control Act of 1977, as amended, T.C.A. §69-3-101 et seq.

(2) "Activity" means any and all work or acts associated with the performance, or carrying out of a project or a plan, or construction of a structure.

(3) "Adjacent" means bordering, contiguous, or neighboring. Wetlands separated from other waters of the State by man-made dikes or barriers, natural river berms and the like are "adjacent wetlands".

(4) "Aquatic Resource Alteration Permit" means a permit pursuant to §69-3-108 of the Tennessee Water Quality Control Act of 1977, which authorizes the alteration of properties of waters of the State which result from activities other than discharges of wastewater through a pipe, ditch or other conveyance. Such a permit shall impose conditions, including standards and terms of periodic review, as are necessary to accomplish the purposes of the Act.

(5) "Background Conditions" means the biological (plant and animal species), chemical and physical conditions of the wetland or water body prior to the proposed activity. If the water body is disturbed, it may be necessary to use the biological, chemical and physical conditions of a similar water body as a reference condition.

(6) "Best Management Practices" means a schedule of activities, prohibition of practices, maintenance procedures and other management practices to prevent or reduce the pollution of waters of the State. BMP's include methods, measures, practices, and design and performance standards.

(7) "Certification" means a permit under the Tennessee Water Quality Control Act of 1977, as required by §401 of the Federal Water Pollution Control Act, which certifies, either unconditionally or through imposition of terms under which the activity must be carried out, that the activity will comply with applicable provisions of §§301, 302, 303, 306, and 307 of the Federal Water Pollution Control Act and Chapters 1200-4-3 and 1200-4-4 of the Rules of the Water Quality Control Board and the Department of Environment and Conservation and the Act.

(8) "Channelization" means the alteration of stream channels including but not limited to straightening, widening, or enlarging.

(9) "Cofferdam" means an enclosure from which water can be pumped to expose the bottom of a body of water or a barrier constructed to divert the flow of water to allow construction work.

(10) "Commence Construction" means the physical initiation of on-site structural or earthmoving work.

(11) "Constructed Wetland" means intentionally designed, built and operated on previously nonwetland sites for the primary purpose of wastewater treatment or stormwater retention; such wetlands are not created to provide mitigation for adverse impacts or other wetlands.

(12) "Clearing and Grubbing" means the removal of vegetation by cutting and digging up roots and stumps.
(13) "Cumulative Impacts" means the impact on the environment which results from the incremental impact of the action when added to other past, present, and reasonably foreseeable future actions. A cumulative impact to a wetland can be the loss of the variety of the natural wetland types, wetland acreage, functions and classified uses.

(14) "Debris" means woody materials, trash, flotsam, dislodged vegetation, and other potentially mobile materials which may, when located within a stream channel, contribute to flow blockage. This does not include gravel, sand, soil or its constituents such as silt, clay or other sediments.

(15) "Degradation" means the alteration of the properties of waters by the addition of pollutants or removal of habitat.

(16) "Ditch" means a man-made excavation for the purpose of conveying water. Ditches do not include streams, modified streams or canals.

(17) "Dredging" (sand and gravel dredging) means the removal of sand, gravel and similar sediments or deposits from a stream, river, or lake bed or wetland by any method.

(18) "Earthmoving" means any construction or other activity, which disturbs the surface of the land including, but not limited to, excavation, embankment, fill, and cut of soil, rock, or earth.

(19) "Emergency" means a situation where life or substantive improvements to real property is in immediate danger.

(20) "Erosion" means the process by which the land surface is worn away by the action of water, wind, gravity, chemicals, or a combination thereof.

(21) "Excavation" (a) means a cavity formed by digging, quarrying, uncovering, displacing, or relocating soil or rock; or, (b) means to dig or remove soil, rocks, or other materials resulting in a change in all or part of the elevation of a site.

(22) "General Permit" means a permit issued under the Act and this Rule authorizing an alteration to state waters within the state for a specified category of activities that are substantially similar in nature.

(23) "Hydrogeomorphic System" means a classification system for wetlands based on geomorphic setting, water source, and hydrodynamics; used to identify and group functionally similar wetlands.

(24) "Individual Permit" means a permit issued by the Division of Water Pollution Control to a specified person to conduct specified activities at a specified location. This type of permit does not authorize an activity by a class of persons or the public in general.

(25) "In the Dry" means in such a manner that no equipment or dredged material is in contact with the stream or wetland and that the soil water boundary is not disturbed by equipment or that no infiltration is pumped to the stream from the dredge site.

(26) "Minimal Impacts" means an activity for which the scope is very limited in area, the impact is very short in duration, and has no impact to waters just downstream of the location of the activity. Examples of activities with 'minimal impacts' include, but are not limited to, (1) minor channel changes associated with bank stabilization; and (2) an activity typically authorized by General Permit, but which requires an Individual Permit because the project falls under one of the listed exclusions.
(27) “Minor Road Crossing” is a bridged or culverted roadway fill across a stream or river which results in the alteration of 200 linear feet or less of stream bed or shoreline.

(28) "Mitigation" means compensating for impacts in regulated areas as provided by Rule 1200-4-7-.04(7).

(29) "Practicable alternative" is an alternative that is available and capable of being done after taking into consideration cost, existing technology, and logistics in light of overall project purposes.

(30) "Resource Values" are the benefits provided by the water resource. These benefits include, but are not limited to, the ability of the water resource to:

(a) filter, settle and/or eliminate pollutants;
(b) prevent the entry of pollutants into downstream waters;
(c) assist in flood prevention;
(d) provide habitat for fish, aquatic life, livestock and water fowl;
(e) provide drinking water for wildlife and water fowl;
(f) provide and support recreational uses; and
(g) provide both safe and adequate quality and quantity of drinking water.

(31) “Sediment” means soil or its constituents that has been deposited in water, is in suspension in water, is being transported, or has otherwise been removed or disturbed from its site of origin.

(32) “Sedimentation or Siltation” means the process by which sediment is deposited in or by the waters of the State.

(33) “Settling Basin” means a prepared storage area constructed to trap and store sediment from erodible areas in order to protect any streams below the construction areas from excessive siltation; an impoundment that accumulates transported sediment and has provisions for a principal spillway; a reservoir which retains high flows sufficiently to cause deposition of transported sediment.

(34) “Stabilize” means the proper placing, grading, and/or covering of soil, rock, or earth to insure their resistance to erosion, sliding or other movement.

(35) "Stream" means all waters of the State on the surface of the ground except wet weather conveyances; streams include, but are not limited to, creeks, rivers, canals, and tributaries.

(36) “Structure” means any building, pier, wharf, dolphin, weir, boom, breakwater, bulkhead, revetment, riprap, jetty, mooring structure, moored floating vessel, piling, aid to navigation, bridge, culvert or any other obstacle or obstruction.

(37) “Utility Line” means any pipe or pipeline for the transportation of any gaseous, liquid, liquefiable or slurry substance, for any purpose, and any cable, line, or wire for the transmission for any purpose of electrical energy, telephone and telegraph messages, and radio and television communication.
(38) “Water Dependent” describes an activity that requires location in or adjacent to surface waters or wetlands in order to fulfill its basic purpose.

(39) "Wetlands" means those areas that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas.

(40) "Wetland Dependent" means that the location of a project or conducting an activity in a wetland is essential to fulfill the purpose of the project. Examples of such projects are fish and wildlife management, nature trails, wildlife observation points, etc.

(41) “Wet Weather Conveyances” are man-made or natural watercourses, including natural watercourses that have been modified by channelization, that flow only in direct response to precipitation runoff in their immediate locality, and whose channels are above the groundwater table, and which do not support fish or aquatic life, and are not suitable for drinking water supplies.

(42) Terminology not specifically defined herein shall be defined in accordance with the Tennessee Water Quality Control Act of 1977, T.C.A. §69-3-101 et seq., and the rules adopted thereunder.

Authority: T.C.A. §69-3-105(b), §69-3-108

1200-4-7-.04 PERMITS

(1) Application for a Permit.

(a) Any person who plans to engage in any of the activities outlined in §69-3-108 must obtain a permit from the Commissioner to lawfully engage in such activity. There are three (3) types of permits: Individual Permits; §401 Water Quality Certifications; and General Permits. An activity requiring a permit may be authorized by either an Aquatic Resource Alteration Permit or §401 Water Quality Certification depending on whether the activity requires a §404 permit from the United States Army Corps of Engineers (Corps). There are several types of General Permits: (1) a General Permit that authorizes the implementation of the activity in accordance with all the terms and conditions of the General Permit without prior notice and approval from the Commissioner; (2) a General Permit which requires the applicant notify TDEC of the planned activity prior to implementing the activity in accordance with the terms and conditions of the General Permit; and (3) a General Permit which requires the applicant to notify the Commissioner of the planned activity and receive approval from the Commissioner prior to implementing the activity in accordance with the terms and conditions of the General Permit. Certain of the General Permits authorize an activity that is authorized by a Nationwide Permit of the U.S. Corps of Engineers and therefore serve as a §401 Certification. Persons need not file an application with the Commissioner if they are conducting an activity pursuant to a General Permit that does not require Notice or approval. Persons who desire to implement an activity pursuant to a General Permit which requires Notice or Notice and prior approval, must submit the necessary documentation required by the General Permit prior to implementing the planned activity in accordance with the terms and conditions of the General Permit. A person must file an application for an Individual Permit or for a §401 Water Quality Certification with the Department, in accordance with paragraphs (3) and (4) of this rule, to implement any activity that is not authorized by a General Permit. All General Permits in effect as of the date of this Rule shall continue in effect, and are not revoked by these Rules.
(b) The application to the Commissioner for certification of activities which require §404 permits from the United States Army Corps of Engineers (Corps) shall be the application filed with the Corps. The Joint Public Notice which shall be issued by the Corps, describes the activity and notifies the general public of the application for the §404 permit and state certification and of the public’s right to submit comments and requests for public hearing. If the Commissioner determines that additional notice to the public is required, the Department will issue a public notice in accordance with its procedures. If further information is required for project evaluation, the Commissioner may request it from either the applicant or the Corps.

(2) General permits.

The Commissioner may use General Permits to authorize alterations to state waters for specific categories of activities that are substantially similar in nature within the state or other specified geographical areas. When the Commissioner determines that a category or activity is suitable for coverage by a General Permit, or that substantive modification of existing General Permits is consistent with §69-3-108 of the Tennessee Water Quality Control Act of 1977, the Commissioner will provide notice of and conduct a minimum of one (1) public hearing. The public notice will contain the relevant information, as set forth in part (5)(c). TDEC will distribute the public notice to interested persons who have requested TDEC notify them of ARAP applications and by posting on the TDEC website. Interested persons may submit written comments on the General Permit within thirty (30) days of the public notice or such greater period as the Commissioner allows. All written comments submitted shall be retained and considered in the final determination to issue a General Permit.

(3) §401 Water Quality Certification.

(a) General. Any person who plans to engage in any of the activities outlined in §404 of the Federal Clean Water Act must obtain a federal permit as well as either a state permit or a state water quality certification under §401 of the Clean Water Act to lawfully engage in such activity in the State of Tennessee. Section 401 of the Federal Clean Water Act requires the Commissioner to certify that the issuance of the federal §404 permit meets the requirements of sections of the Federal Clean Water Act and the Water Quality Control Act. Persons must make application for the planned activity with the Army Corps of Engineers for an individual §404 permit or make use of a Corps of Engineers’ nationwide permit.

(b) An individual §404 permit. Where the activity requires an individual §404 permit, the application filed with the Army Corps of Engineers will serve as the application for either the state permit or the state §401 certification. The applicant must file the completed federal application with TDEC for the Commissioner to process and evaluate. The Commissioner will review a completed application and make a determination whether to issue a §401 Water Quality Certification. The application must describe the proposed activity and include all the necessary technical information for the Commissioner to make a determination, including an evaluation of practicable alternatives. The practicable alternatives analysis required by this part may be satisfied by the applicant’s submittal to the Division of a practicable alternatives evaluation for the proposed activity which has been submitted to the Army Corps of Engineers. For activities that may result in degradation of Exceptional Tennessee Waters, the alternatives analysis shall include a discussion of the feasibility of all potential alternatives, plus the social and economic considerations and environmental consequences of each consistent with Chapter 1200-4-3-.06.

(c) A nationwide permit. Where the activity can be authorized by a Corps of Engineers nationwide permit, the §401 certification can be obtained through the use of a state general
permit, if applicable, or an individual permit pursuant to paragraph (4) of this rule. If the Commissioner issues a §401 Certification, the §401 Certification is the state permit.

(4) Individual Permits.

(a) Persons who plan to engage in any activity that requires an Aquatic Resource Alteration Permit which is not governed by a General Permit or a §401 Water Quality Certification, must submit an application to the Commissioner for review and approval prior to implementing the planned activity. The Commissioner will review a completed application and make a determination whether to issue an Individual Permit. The application must describe the proposed activity and include all the necessary technical information for the Commissioner to make a determination. The applicant shall assess the practicable alternatives for a planned activity.

(b) An applicant shall describe the proposed project including the use of technical terms in the definition section of this part where relevant. The sketch or plans and specifications submitted with the application shall describe the method for implementation of the planned activity. Where the proposed activity would result in an appreciable permanent loss of resource value, the applicant must propose adequate mitigation actions so that there is no overall net loss of state water resource values. The applicant shall set forth in the application a brief summary of the practicable alternatives considered to implement the proposed activity. If the activity would result in degradation of Exceptional Tennessee Waters, the alternatives analysis shall include as a part of the application a discussion of the feasibility of all potential alternatives, plus the social and economic considerations and environmental consequences of each consistent with Chapter 1200-4-3-.06 and the individual must comply with Section 7 of this Part.

(c) An Individual Permit is required for water withdrawals which will or will likely result in alteration of the properties of the source stream.

1. Persons proposing to withdraw water from waters of the state in a manner which will or will likely result in an alteration of the properties of the source stream, shall file an application with the Department which includes the following minimum information:

   (i) proposed withdrawal rates and volumes;

   (ii) proposed withdrawal schedule; and

   (iii) flow data of the source stream (if free flowing).

2. Where a permit for water withdrawal is required, the Commissioner shall establish permit conditions which are protective of the source stream's resource value. These conditions may include flow levels below which no withdrawal may occur. The Commissioner may also establish a maximum withdrawal rate in order to maintain the natural flow fluctuation characteristics of the source stream.

(5) Public Notice and Participation.

(a) An ARAP Individual Permit or a §401 Certification requires the issuance of Public Notice seeking public participation and comment on the planned activity. However, Public
Notice is not required for an activity authorized by General Permit since Public Notice is provided pursuant to part (2) of this part. Each completed application shall be subject to the public notice and participation requirements of Part (b) of this part with the following exceptions:

1. §401 Certification. The Department's procedure for issuing public notice for certification of an application for a federal license or permit pursuant to §401 of the Clean Water Act may be either a public notice issued jointly with the Corps and distributed in accordance with federal requirements, or a public notice issued by the Department. Such notice will describe the activity, advise the public of the scope of certification, their rights to comment on the proposed activity and to request a public hearing. The notice will also inform the public to whom they should send their requests and comments.

2. Minimal impact activities. For activities that are projected to have only minimal impacts to state waters, which can be readily addressed, the Commissioner may utilize a twenty (20) day public notice period.

3. When the Commissioner determines that a proposed permit modification will not materially change water quality aspects of the project, or will result in an improvement of water quality, as compared to the originally permitted activity, a permit may be modified without public notice.

4. Where the Commissioner determines an emergency situation exists, a permit for remedial action may be issued without prior public notice and participation. The emergency permit shall be advertised by public notice, however, no later than twenty (20) days after issuance. The remedial actions allowed shall be limited to those necessary to remedy the emergency.

(b) Upon receipt of a completed ARAP application, the Commissioner will review and evaluate the proposed activity or project to make a determination whether the activity would require an Individual Permit, as described in (4) of this Part. In order to inform interested and potentially interested persons of the proposed activity, a Public Notice seeking public participation and comment on the activity will be given.

1. The Public Notice will include the following information:

   (i) Name, address, and telephone number of the applicant;

   (ii) Name and address of TDEC contact person;

   (iii) A brief description of the proposed activity;

   (iv) A brief description of the scope of the proposed activity;

   (v) The location of the state waters impacted by the proposed activity;

   (vi) A sketch or detailed description of the location of the proposed activity and the subject waters of the state;

   (vii) The purpose of the proposed activity;

   (viii) The watershed of the subject waters;
(ix) A description of the conditions of the subject waters and the watershed, (e.g., physical conditions of the waters, quality of the waters such as size, flow, substrate, channel, etc.);

(x) The procedure to submit comments on the proposed activity;

(xi) The procedure for requesting a public hearing; and

(xii) A brief description of the procedure for the Commissioner to make a final determination to issue a permit.

2. The approved Public Notice shall be distributed to interested persons and shall be circulated within the geographical area of the proposed activity as follows:

(i) TDEC will distribute the approved Public Notice to interested persons who have requested TDEC notify them of ARAP applications and by posting on the TDEC website.

(ii) The Applicant shall distribute the approved Public Notice to the neighboring landowners by publishing in a local newspaper of general circulation for linear projects such as highways or cross-country pipelines or by posting a sign within view of a public road in the vicinity of the proposed project site as specified by the Division for other projects. The sign shall contain those provisions as specified by the Division. The sign shall be of such size that is legible from the public road. Also, the sign shall be maintained for at least thirty (30) days following distribution of the approved Public Notice.

(iii) The applicant shall provide certification to the Division of compliance with item (ii).

(c) A copy of the public notice shall be sent to any person who specifically requests one. Interested persons may submit written comments on the proposed activity within thirty (30) days of public notice or such greater period as the Commissioner allows. All written comments submitted shall be retained and considered in the final determination to issue a permit.

(d) Interested persons, including the applicant, may request, in writing, that the Commissioner hold a public hearing on any application. Said request from interested persons must be filed no later than the end of the period allowed for public comment, and must indicate the interest of the party filing it, must concisely state the water quality issues being raised, and the reasons why a hearing is warranted. If there are water quality issues and significant public interest in having a hearing, the Commissioner shall hold one in the geographical area of the proposed activity. No less than thirty (30) days in advance of the hearing, public notice of it shall be circulated at least as widely as was notice of the application. The Commissioner will distribute notice of the public hearing as set forth in 2. (i) above, and by publishing in a local newspaper. The notice shall cite the date, time and place of the public hearing, a statement of the issues raised by the person requesting the hearing, and the purpose of the public hearing.

(6) Permit Evaluation Criteria.
(a) Some activities may not be entitled to a permit. When a permit is granted, it shall require compliance with all provisions of the Act, the regulations adopted pursuant to the Act, and any special terms or conditions the Commissioner determines are necessary to fulfill the purposes or enforce the provisions of the Act.

(b) A permit may be modified, suspended, or revoked for cause by the Commissioner upon such notice to the permittee as required by law. Permits for activities that have been completed are not subject to modification. If a modification results in a less restrictive permit, then public notice and opportunity for hearing must be given prior to modification. Cause shall include, but not be limited to the following:

1. violation of any terms or conditions of the permit;
2. obtaining a permit by misrepresentation or failure to disclose fully all relevant facts;
3. causing a condition of pollution;
4. violation(s) of the Act or other environmental statutes;
5. a change in the Act or regulations that substantively impacts the content of the permit;
6. a change in the Federal Clean Water Act that substantively impacts the content of the permit; and
7. a significant change of the physical condition(s) of the site or the waters.

(c) The Act requires that no activity be authorized by the Commissioner unless any lost resource value associated with the proposed impact is offset by mitigation sufficient to result in no overall net loss of resource value. Further, when a proposed alteration would result in degradation of Exceptional Tennessee Waters, the project must be found to be socially or economically justified pursuant to Chapter 1200-4-3-.06. In a situation in which an applicant proposes mitigation that would not result in no overall net loss, or in which a project that would result in degradation of Exceptional Tennessee Waters is found not to be socially or economically justified pursuant to Chapter 1200-4-3-.06, the Commissioner shall not issue the permit unless the applicant redesigns the project to avoid impacts, minimize them, or provide mitigation as provided in paragraph (7) so that the redesigned project would result in no net loss of resource value or no degradation of Exceptional Tennessee Waters pursuant to Chapter 1200-4-3-.06. In making a decision on a permit application, the Commissioner shall determine the lost resource value associated with a proposed impact and the resource value of any proposed mitigation and shall consider the following factors:

1. direct loss of stream length, waters, or wetland area due to the proposed activity;
2. direct loss of in-stream, waters, or wetlands habitat due to the proposed activity;
3. impairment of stream channel stability due to the proposed activity;
4. diminishment in species composition in any stream, wetland, or state waters due to the proposed activity;
5. direct loss of stream canopy due to the proposed activity;

6. whether the proposed activity is reasonably likely to have cumulative or secondary impacts to the water resource;

7. conversion of unique or high quality waters as established in Rule 1200-4-3-.06 to more common systems;

8. hydrologic modifications resulting from the proposed activity;

9. the adequacy and viability of any proposed mitigation including, but not limited to, quantity, quality, likelihood of long term protection, and the inclusion of upland buffers;

10. quality of stream or wetland proposed to be impacted;

11. whether the state waters are assessed as not fully supporting classified uses; whether the proposed activity is located in a component of the National Wild and Scenic River System, a State Scenic River, waters designated as Outstanding National Resource Waters, or waters identified as high quality waters as defined in Rule 1200-4-3-.06, known as Tier II waters; whether the activity is located in a waterway which has been identified by the Department as having contaminated sediments; and whether the activity will adversely affect species formally listed in State and Federal lists of threatened or endangered species; and

12. any other factors relevant under the Act.

(d) All permits which require mitigation of impacts shall contain conditions requiring that the mitigation is performed properly, performed in a timely manner and is adequately maintained.

(7) Mitigation.

(a) Mitigation of state waters other than wetlands.

If an applicant proposes an activity that would result in an appreciable permanent loss of resource value of a state water, the applicant must provide mitigation which results in no overall net loss of resource values. The applicant shall provide the Commissioner with a time schedule for completion of all mitigation measures for approval. Further, for any mitigation involving the relocation or re-creation of a stream segment, to the extent practicable, the applicant shall complete the mitigation before any impact occurs to the existing state waters. Mitigation measures include, but are not limited to:

1. Restoration of degraded stream reaches and/or riparian zones;

2. New (relocated) stream channels;

3. Removal of pollutants from and hydrologic buffering of stormwater runoff; and

4. Any other measures which have a reasonable likelihood of increasing the resource value of a state water.
The Commissioner will assess the proposed mitigation to assure there is no overall net loss of resource value. The mitigation measures or actions should be prioritized in the following order: restoration, enhancement, re-creation, and protection.

(b) Mitigation of Wetlands.

1. If an applicant proposes an activity that would result in an appreciable permanent loss of resource value of wetlands, the applicant must provide mitigation, which results in no overall net loss of resource value. The applicant shall provide the Commissioner with a time schedule for completion of all mitigation measures for approval. Further, for any mitigation involving the enhancement or preservation of existing wetlands, to the extent practicable, the applicant shall complete the mitigation before any impact occurs to the existing state waters. For any mitigation involving restoration or creation of a wetland, to the extent practicable, the mitigation shall occur either before or simultaneously with impacts to the existing state waters. Mitigation for impacts to wetlands is prioritized as follows:

(i) Restoration of a previously degraded or impacted wetland (with emphasis on prior converted areas) on-site or in the immediate project area;

(ii) Restoration, including mitigation banking, off-site but within the eight digit United States Geological Survey hydrological unit in which the project is located;

(iii) Restoration, including mitigation banking, outside of the eight digit United States Geological Survey hydrological unit in which the project is located;

(iv) Creation of wetlands on-site or in the immediate project area;

(v) Creation of wetlands off-site;

(vi) Enhancement of existing wetlands;

(vii) Preservation of existing wetlands; or

(viii) A combination of any of the above activities.

2. The ratio of acres required for wetland mitigation should not be less than 2:1 for restoration activities; 4:1 for creation and enhancement; and 10:1 for preservation. Alternatively, the applicant may propose and utilize, subject to the Division's approval, best professional judgment ratios. The best professional judgment ratios shall be based on the resource value and functions of the affected wetland, resource value of the mitigation, and the likelihood of success of the mitigation.

3. All wetland mitigation projects shall include a monitoring and reporting program to document timely achievement of a successful mitigation wetland and remedial actions to correct any deficiency.

(8) Duration and Re-issuance of Permits.

(a) Each permit issued shall have a fixed term not to exceed five (5) years.

(b) Re-issuance of permits is not required for one-time alterations such as construction, as long as the alterations are completed within the time limit established by permit.
(c) For on-going alterations, such as water withdrawals, any permittee who wishes to continue the permitted activity after the expiration date of the permit must make application at least ninety (90) days prior to its expiration date.

(d) The Commissioner shall follow the procedures for public notice and participation detailed in paragraph (4), above, regarding each application for re-issuance of a permit.

(9) Review of Permit Denials, Suspensions, Revocations, Terms and Conditions.

Permittees and applicants for permits who disagree with the denial, suspension or revocation of a permit or the terms and conditions of a permit are entitled to review of the Commissioner's decision by the Water Quality Control Board pursuant to §69-3-105. Any action taken by the Commissioner regarding a permit remains in effect unless and until an order of the Water Quality Control Board or a reviewing court becomes final.

Rule 0880-11-.20 Advertising, is amended by deleting the language of the rule in its entirety and substituting the following language as new paragraphs (1) through (5):
RULEMAKING HEARINGS

(1) Policy Statement. The lack of sophistication on the part of many in the health care community concerning clinical perfusion, the importance of the interests affected by the choosing of clinical perfusionists and the foreseeable consequences of unrestricted advertising by clinical perfusionists which is recognized to pose special possibilities for deception, require that special care be taken by clinical perfusionists to avoid misleading the health care community. Clinical perfusionists must be mindful that the benefits of advertising depend upon its reliability and accuracy. Since advertising by clinical perfusionists is calculated and not spontaneous, reasonable regulation designed to foster compliance with appropriate standards serves the public interest without impeding the flow of useful, meaningful, and relevant information to the health care community.

(2) Definitions

(a) Advertisement – Informational communication to the health care community in any manner designed to attract attention to the clinical perfusionists which are licensed to practice in Tennessee.

(b) Licensee - Any entity holding a license as a clinical perfusionist in the State of Tennessee. Where applicable this shall include partnerships and/or corporations.

(c) Material Fact - Any fact which a health care provider would need to know or rely upon in order to make an informed decision concerning the choice of clinical perfusionists to serve its particular needs.

(d) Health Care Community – Shall mean hospitals, ambulatory surgical treatment centers, medical practices, individual physicians, and other health care providers with legal authority to utilize clinical perfusionists.

(3) Advertising Content. The following acts or omissions in the context of advertisement by any licensee shall constitute unprofessional conduct, and subject the licensee to disciplinary action pursuant to T.C.A. §63-28-117(3).

(a) Claims that the services performed, personnel employed, materials or office equipment used are professionally superior to that which is ordinarily performed, employed, or used, or that convey the message that one licensee is better than another when superiority of services, personnel, materials or equipment cannot be substantiated.

(b) The misleading use of an unearned or non-health degree in any advertisement.

(c) Promotion of professional services which the licensee knows or should know is beyond the licensee’s ability to perform.

(d) Techniques of communication which intimidate, exert undue pressure or undue influence over a prospective client.

(e) Any appeals to an individual’s anxiety in an excessive or unfair manner.

(f) The use of any personal testimonial attesting to a quality of competency of a service or treatment offered by a licensee that is not reasonably verifiable.

(g) Utilization of any statistical data or other information based on past performances for prediction of future services, which creates an unjustified expectation about results that the licensee can achieve.
RULEMAKING HEARINGS

(h) The communication of personal identifiable facts, data, or information about a patient without first obtaining patient consent.

(i) Any misrepresentation of a material fact.

(j) The knowing suppression, omission or concealment of any material fact or law without which the advertisement would be deceptive or misleading.

(k) Statements concerning the benefits or other attributes of medical procedures or products that involve significant risks without including:

1. A realistic assessment of the safety and efficiency of those procedures or products; and

2. The availability of alternatives; and

3. Where necessary to avoid deception, descriptions or assessment of the benefits or other attributes of those alternatives.

(l) Any communication which creates an unjustified expectation concerning the potential results of any procedure.

(m) Failure to comply with the rules governing advertising records.

(n) Misrepresentation of a licensee’s credentials, training, experience, or ability.

(o) Failure to include the corporation, partnership or individual licensee’s name, address, and telephone number in any advertisement. Any corporation, partnership or association which advertises by use of a trade name or otherwise fails to list all clinical perfusion personnel practicing at a particular location shall:

1. Upon request provide a list of all clinical perfusion personnel practicing at that location; and

2. Maintain and conspicuously display at the licensee’s office, a directory listing all clinical perfusion personnel practicing at that location.

(p) Failure to disclose the fact of giving compensation or anything of value to representative of the press, radio, television or other communicative medium in anticipation of or in return for any advertisement (for example, newspaper article) unless the nature, format or medium of such advertisement make the fact of compensation apparent.

(q) After thirty (30) days of the licensee’s departure, the use of the name of any clinical perfusion personnel formerly practicing at or associated with any advertised location or on office signs or buildings. This rule shall not apply in the case of a retired or deceased former associate who practiced in association with one or more of the present licensees if the status of the former associate is disclosed in any advertisement or sign.

(r) Stating or implying that a certain licensee provides all services when any such services are performed by another licensee.

(4) Advertising Records and Responsibility
(a) Each licensee who is a principal partner, or officer of a firm or entity identified in any advertisement, is jointly and severally responsible for the form and content of any advertisement. This provision shall also include any licensed professional employees acting as an agent of such firm or entity.

(b) Any and all advertisement are presumed to have been approved by the licensee named therein.

(c) A recording of every advertisement communicated by electronic media, and a copy of every advertisement communicated by print media, and a copy of any other form of advertisement shall be retained by the licensee for a period of two (2) years from the last date of broadcast or publication and be made available for review upon request by the Board or its designee.

(d) At the time any type of advertisement is placed, the licensee must possess and rely upon information which, when produced, would substantiate the truthfulness of any assertion, omission or representation of material fact set forth in the advertisement or public information.

(5) Severability. It is hereby declared that the sections, clauses, sentences and part of these rules are severable, are not matters of mutual essential inducement, and any of them shall be rescinded if these rules would otherwise be unconstitutional or ineffective. If any one or more sections, clauses, sentences or parts shall for any reason be questioned in court, and shall be adjudged unconstitutional or invalid, such judgment shall not affect, impair or invalidate the remaining provisions thereof, but shall be confined in its operation to the specific provision or provisions so held unconstitutional or invalid, and the in applicability or invalidity of any section, clause, sentence or part in any one or more instance shall not be taken to affect or prejudice in any way its applicability or validity in any other instance.

SUBSTANCE OF PROPOSED RULES

CHAPTER 0940-3-8
USE OF ISOLATION, MECHANICAL RESTRAINT,
AND PHYSICAL HOLDING RESTRAINT
IN MENTAL HEALTH RESIDENTIAL TREATMENT FACILITIES

NEW RULES
0940-3-8-.01 **SCOPE.**

(1) This chapter applies to facilities and services licensed as a Mental Health Residential Treatment Facility for Children and Youth (Chapter 0940-5-37) or as a Mental Health Adult Residential Treatment Facility (Chapter 0940-5-17). Use of isolation, mechanical restraint or physical holding restraint in mental health treatment settings other than mental health residential treatment facilities is governed by other Department of Mental Health and Developmental Disabilities (DMHDD) rules. Use of chemical restraint is not permissible in mental health residential treatment facilities.

*Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305, 308, and 33-3-120.*

0940-3-8-.02 **PURPOSE.**

(1) Isolation, mechanical restraint, or physical holding restraint may be used only in an emergency safety situation to assure the physical safety of the service recipient or others nearby or to prevent significant destruction of property. Isolation, mechanical restraint, or physical holding restraint may be used only when all less intrusive or restrictive methods have been ineffective or determined to be inappropriate. Isolation, mechanical restraint, or physical holding restraint must be evaluated continuously and ended at the earliest possible time based on the assessment and evaluation of the service recipient’s condition and behaviors. Isolation, mechanical restraint, or physical holding restraint must not be imposed in any form as a means of coercion, discipline, convenience of or retaliation by staff or for lack of staff presence or competency.

*Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305, 308, and 33-3-120; 42 CFR 483.356(a)(1) and (3)(ii).*
0940-3-8-.03 DEFINITIONS.

(1) “Chemical restraint” means the use of a medication to restrict the service recipient’s freedom of movement for the emergency control of behavior. Chemical restraints are medications used in addition to, or in replacement of, the service recipient’s regular drug regimen to control extreme behavior during an emergency. The medications that comprise the service recipient’s regular medical regimen, including PRN medications, are not chemical restraints, even if their purpose is to control ongoing behavior.

(2) “Conservator” means a person appointed by a court under the conservatorship laws in Title 34, Chapter 3, Tenn. Code Ann., or the Uniform Veterans’ Guardianship Law in Title 34, Chapter 5, Tenn. Code Ann., with authority to make decisions for an adult who lacks capacity to make informed health care decisions.

(3) “Custodian” means an agency or individual appointed by a juvenile court to have full control of a service recipient who is a child.

(4) “Durable power of attorney for health care” means a legal document authorized by Title 34, Chapter 6, Part 2, Tenn. Code Ann., that allows the attorney-in-fact to make decisions for health care.

(5) “Emergency safety situation” means service recipient behavior that places the service recipient or others at serious threat of violence or injury or significant destruction of property if no intervention occurs and calls for the use of isolation, mechanical restraint, or physical holding restraint.

(6) “Guardian” means a person appointed by a court under Title 34, Chapter 2, Tenn. Code Ann., with authority to make decisions for a person under eighteen (18) years of age who lacks capacity to make informed health care decisions.

(7) “Hospital” means a licensed public or private inpatient treatment resource or hospital or a part of such treatment resource or hospital that provides inpatient care and treatment for persons with mental illness or serious emotional disturbance.

(8) “Involuntarily committed service recipient” means a service recipient who is receiving services on an involuntary basis under Title 33, Chapter 6, Part 4 or 5, Tennessee Code Annotated, T.C.A. §§33-3-401—403, 412, 607, 33-7-301 and 303, or 37-1-128.

(9) “Isolation” means the confinement of a service recipient alone in a room or an area where the service recipient is physically prevented from leaving. This definition is not limited to instances in which a service recipient is confined by a locked or closed door. Isolation does not include:

(a) the segregation of a service recipient for the purpose of managing biological contagion consistent with the Centers for Disease Control Guidelines;

(b) confinement to a locked unit or ward where other service recipients are present. Isolation is not solely confinement of a service recipient to an area, but separation of the service recipient from other persons; or

(c) time-out, a behavior management procedure in which the opportunity for positive reinforcement is withheld, contingent upon the demonstration of undesired behavior. Time-out may involve the voluntary separation of an individual service recipient from others.
(10) "Mechanical restraint" means the application of a mechanical device, material, or equipment attached or adjacent to the service recipient's body, including ambulatory restraints, that the service recipient cannot easily remove and that restricts freedom of movement or normal access to the service recipient's body. Mechanical restraint does not include the use of:

(a) restrictive devices or manual methods employed by a law enforcement agent or other public safety officer to maintain custody, detention, or public safety during the transport of a service recipient under the jurisdiction of the criminal justice system or juveniles with charges in the juvenile justice system; or

(b) restraints for medical immobilization, adaptive support, or medical protection; or

(c) restrictive devices administratively authorized to ensure the safety of the service recipient or others when an involuntary committed service recipient must be transported.

(11) "Mental health personnel" means a staff member who operates under the direct supervision of a licensed practitioner.

(12) "Physical holding restraint" means the use of body contact by staff with a service recipient to restrict freedom of movement or normal access to his or her body. Physical holding restraint does not include the use of:

(a) physical touch associated with prompting, comforting or assisting that does not prevent the service recipient's freedom of movement or normal access to his or her body;

(b) physical escort for the temporary touching or holding of the hand(s), wrist(s), arm(s), shoulder(s) or back for the purpose of inducing the service recipient to walk to a safe location; or

(c) physical intervention for the temporary holding of the hand(s), wrist(s), arm(s), shoulder(s), or leg(s) which does not otherwise restrict freedom of movement or access to one's body, for the purpose of terminating unsafe behavior.

(13) “PRN” means authorization written to allow a medication or treatment to be given on an as-needed basis.

(14) “Licensed Practitioner” means an individual approved by the mental health residential treatment facility to authorize the use of isolation or mechanical restraint and who is licensed by the Tennessee Health Related Boards as a:

(a) physician (medical doctor or doctor of osteopathy);

(b) certified nurse practitioner;

(c) physician assistant;

(d) nurse with a master’s degree in nursing who functions as a psychiatric nurse;

(e) psychologist with health service provider designation;

(f) licensed professional counselor;
(g) senior psychological examiner;

(h) licensed clinical social worker; or

(i) licensed psychological examiner.

(15) “Seclusion” means “Isolation.”

(16) “Service recipient,” for purposes of this chapter, means an individual receiving mental health residential treatment services.

(17) “Temporary caregiver” means an individual designated under T.C.A. §34-6-302 to make decisions as specified in §34-6-304 for a minor child as assigned by the parent or parents on the form provided by the Department of Children’s Services for this purpose.

Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305, 308, and 33-3-120.

0940-3-8-.04 USE OF ISOLATION, MECHANICAL RESTRAINT, AND PHYSICAL HOLDING RESTRAINT

(1) Isolation, mechanical restraint or physical holding restraint may be used in mental health residential treatment facilities only in compliance with this chapter.

0940-3-8-.05 POLICIES AND PROCEDURES.

(1) Any mental health residential treatment facility that uses isolation, mechanical restraint, or physical holding restraint must develop and employ policies and procedures that ensure compliance with this chapter. Policies and procedures must identify: approved techniques for the safe and appropriate application and removal of isolation, mechanical restraint, and physical holding restraint; devices, materials, and/or equipment that are approved by the mental health residential treatment facility for use as mechanical restraints; licensed practitioners by profession who are responsible for authorizing the isolation, mechanical restraint, or physical holding restraint; required elements in the order; and minimal physical and psychological elements that must be assessed. No policy or procedure may authorize the removal of clothing from a service recipient, other than that which is determined to place the service recipient or others at risk, in conjunction with the use of isolation, mechanical restraint, or physical holding restraint. Policies or procedures may not allow staff to use isolation, mechanical restraint, or physical holding restraint before receiving training under 0940-3-8-.17.

Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305, 308 and 33-3-120; 42 CFR 483.356.

0940-3-8-.06 INITIATION OF ISOLATION, MECHANICAL RESTRAINT, OR PHYSICAL HOLDING RESTRAINT.

(1) Before isolation, mechanical restraint, or physical holding restraint may be used, the service recipient must be assessed to determine the need for one of these interventions. The assessment must support that isolation, mechanical restraint, or physical holding restraint is necessary to assure the physical safety of the service recipient or a person nearby or avoid
significant destruction of property and assure that all less restrictive interventions have been ineffective or determined to be inappropriate. This assessment is necessary upon initiation of isolation, mechanical restraint, or physical holding restraint at the time of the emergency, or, if initiated without the participation of a licensed practitioner, must be performed, face-to-face, within one hour of the initiation by a licensed practitioner. The assessment of need must be documented in the service recipient’s record.

(2) A licensed practitioner may initiate isolation, mechanical restraint or physical holding restraint. In the absence of a licensed practitioner, isolation, mechanical restraint, or physical holding restraint may be initiated by a licensed practical nurse, a registered nurse or by mental health personnel with a minimum of a bachelor’s degree or two (2) years of full time equivalent experience in a mental health inpatient or mental health residential treatment facility. All staff who initiate the use of isolation, mechanical restraint, or physical holding restraint must have training in compliance with this chapter. A licensed practitioner who has been trained in the use of isolation, mechanical restraint, and physical holding restraint must be contacted immediately for authorization of the isolation, mechanical restraint, or physical holding restraint if a licensed practitioner did not initiate it.

Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305, 308 and 33-3-120.

0940-3-8-.07 AUTHORIZATION.

(1) Only a licensed practitioner who has been trained in the use of isolation, mechanical restraint, and physical holding restraint may authorize the use of isolation, mechanical restraint, or physical holding restraint. The authorization must be for the least restrictive intervention possible that is most likely to be effective.

(2) All authorizations must specify isolation, mechanical restraint, or physical holding restraint. If mechanical restraint is authorized, the authorization must specify the type of restraint device(s) to be used and the number of points of restraint; the licensed practitioner’s name and credentials; the date and time when the authorization was obtained; and the maximum length of time the intervention was authorized.

(3) A licensed practitioner must see the service recipient to assess the need for isolation, mechanical restraint, or physical holding restraint within one (1) hour after initiation. No assessments to authorize the use of isolation, mechanical restraint, or physical holding restraint may be made by electronic means.

(4) If the licensed practitioner who authorized the use of isolation, mechanical restraint, or physical holding restraint is not the service recipient’s treating physician, the treating physician shall be consulted as soon as possible and the consultation must be documented in the service recipient’s record. If the service recipient does not have a designated physician for treatment of mental illness or serious emotional disturbance, the mental health residential treatment facility’s physician shall be consulted and the consultation must be documented in the service recipient’s record.

(5) If the authorization for restraint or isolation is verbal, the order must be received by a registered nurse or or a licensed practical nurse and signed by the ordering licensed practitioner within 24 hours of the authorization.

(6) A new authorization is required if there is a change in the intervention utilized, including increasing the number of points of restraint or the application of additional restraint devices. If
the use of isolation, mechanical restraint, or physical holding restraint has been discontinued, it may be used again only with a new authorization, even if a previously authorized time limit has not expired.

Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305, 308 and 33-3-120; 42 CFR 483.358, 358(b), (c), (d), (g), (g)(1-3), (j), and 483.360.

0940-3-8-.08 LENGTH OF AUTHORIZATION.

(1) Each authorization for isolation or mechanical restraint is limited to a maximum of four (4) hours for adults 18 years of age and older, two (2) hours for youth ages 9 through 17, and one (1) hour for children under age 9. Each authorization for physical holding restraint for any age service recipient is limited to a maximum of thirty (30) minutes.

Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305, 308, and 33-3-120; 42 CFR 483.358(e).

0940-3-8-.09 RENEWAL.

(1) A licensed practitioner may renew the original authorization, including a verbal authorization, if a service recipient continues to need isolation, mechanical restraint, or physical holding restraint beyond the time limit of the original authorization. Renewals must comply with 0940-3-8-.06 and 0940-3-8-.07. Under no circumstance can isolation, mechanical restraint, or physical holding restraint exceed twenty-four (24) continuous hours.

(2) Isolation, mechanical restraint, and physical holding restraint cannot be authorized on a PRN basis or as a standing order. Mechanical restraint or physical holding restraint may not be used simultaneously with isolation.

Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305, 308, and 33-3-120; 42 CFR 483.356(a)(2) and (4), 483.362(b) and 483.364(c).

0940-3-8-.10 ASSESSMENT.

(1) Risk assessments must be completed at admission; updated when there is significant change in mental status, behavior, or physical/medical condition; documented in the service recipient’s record and reviewed by the treatment team. The risk assessment must be completed by a licensed practitioner or mental health personnel with a minimum of a bachelor’s degree.

(2) The assessment must identify any specific situations or issues including: chronological and developmental age; size; gender; physical, medical, and psychiatric condition; personal history, including any history of physical and/or sexual abuse; and cultural issues that may trigger behavior that might require the use of isolation, mechanical restraint, or physical holding restraint.

Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305, 308, and 33-3-120.
0940-3-8-.11 BEHAVIORAL CRITERIA FOR RELEASE.

(1) Behavioral criteria for release from isolation, mechanical restraint or physical holding restraint must be specified by a licensed practitioner who may authorize the use of isolation or mechanical restraint or physical holding restraint. In the absence of a licensed practitioner, the behavioral criteria must be specified by a licensed practical nurse, a registered nurse or by mental health personnel with a minimum of a bachelor’s degree or two (2) years of full time equivalent experience in a mental health inpatient or mental health residential treatment facility. The behavioral criteria must be communicated to the service recipient as soon as possible during the isolation, mechanical restraint or physical holding restraint procedure and documented in the service recipient’s record. Behavioral criteria for release must identify the behaviors necessary to no longer justify the use of isolation, mechanical restraint, or physical holding restraint. The isolation, mechanical restraint, or physical holding restraint must be terminated as soon as the behavioral criteria for release have been met.

Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305, 308 and 33-3-120.

0940-3-8-.12 MONITORING AND ASSESSMENT OF CONTINUED NEED.

(1) To continue the use of isolation, mechanical restraint, or physical holding restraint, there must be ongoing assessment of need that justifies the continued use. To continue use, the justification must indicate that the behavioral criteria for release have not been met. All results of monitoring must be documented in the service recipient’s record. Use of isolation, mechanical restraint, or physical holding restraint must be monitored as follows:

(a) Isolation: Staff trained in monitoring isolation monitor a service recipient in isolation. The service recipient must be continuously monitored. Monitoring must be by direct visual observation.

(b) Mechanical Restraint: Staff trained in the monitoring of mechanical restraint must monitor a service recipient in mechanical restraint. The service recipient must be continuously monitored. Monitoring must be by direct visual observation and staff must remain in the immediate physical presence of and in the same room as the service recipient.

(c) Physical Holding Restraint: Staff trained in the monitoring of physical holding restraint monitor a service recipient in a physical holding restraint. The service recipient must be continuously monitored. A staff member who is trained in the monitoring of physical holding restraints must be present as an observer at all times while a service recipient is in a physical holding restraint.

(d) At intervals no greater than fifteen (15) minutes, staff must document visual observations of:

1. behavior justifying continued need for isolation, mechanical restraint, or physical holding restraint;

2. if applicable, the application of the mechanical restraint or physical holding restraint;

3. respiration;
4. negative effects of isolation, mechanical restraint, or physical holding restraint;
5. any sign of distress; and
6. if applicable, an evaluation of the fatigue of the staff member employing a physical holding restraint.

(e) At intervals no greater than one (1) hour for isolation, mechanical restraint or physical holding restraint, the service recipient must be allowed to toilet and be offered fluids. For mechanical and physical holding restraint, the service recipient must also be checked for range of motion. Nourishment must be offered at routine meal and snack times. The facility must document the requirements of 0940-3-8-.12(e) in the service recipient’s record.

(f) At intervals no greater than thirty (30) minutes for physical holding restraint, or one hour for isolation or mechanical restraint, staff who may initiate isolation, mechanical restraint, or physical holding restraint must document an assessment of continued need for isolation, mechanical restraint, or physical holding restraint.

(g) A service recipient must be released from isolation, mechanical restraint, or physical holding restraint when the need for the intervention no longer exists. Before the shift ends, a staff member who may initiate isolation, mechanical restraint, or physical holding restraint must document in the service recipient’s record an assessment of the service recipient’s behavior, mental and physical status at the time the service recipient is released, the time the isolation, mechanical restraint, or physical holding restraint began and ended, and the name of all staff involved.

Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305, 308 and 33-3-120; 42 CFR 483.358(h), 483.358(h)(2) and (5), 483.362, 483.364, 483.364(b) and 483.364(b)(2).

0940-3-8-.13 LOCATION.

(1) Isolation may be provided only in a clean, dry, temperate location and be free of potentially hazardous conditions from which the service recipient might harm himself or herself or others. Rooms used for isolation must allow staff full view of the service recipient in all areas of the room. Mechanical restraint must be imposed in a clean, dry, temperate area as private as possible.

Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305, 308 and 33-3-120.

0940-3-8-.14 TERMINATION.

(1) Isolation, mechanical restraint, or physical holding restraint must be terminated when the behavior justifying its use no longer exists or if the face-to-face assessments required do not occur. Any threat to a service recipient’s physical health or emotional well-being requires immediate release.

Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305 and 1-308 and 33-3-120.
RULEMAKING HEARINGS

0940-3-8-.15 NOTIFICATION.

(1) Upon admission to the mental health residential treatment facility, both the incoming service recipient and the parent, guardian, temporary caregiver, or legal custodian, as appropriate, of an unemancipated child or the conservator, attorney-in-fact under a durable power of attorney which authorizes health care, or surrogate decision-maker of an adult selected under T.C.A. §§33-3-219 and 220 must be informed and provided a copy of the facility’s policy regarding the use of isolation, mechanical restraint, and physical holding restraint during an emergency safety situation. If the parent, guardian, temporary caregiver, or legal custodian, as appropriate, of an unemancipated child or the conservator, attorney-in-fact under a durable power of attorney which authorizes health care, or surrogate decision-maker of an adult selected under T.C.A. §§33-3-219 and 220 is not available upon admission, information regarding the policy will be provided as soon as possible. This policy must be communicated in a way that is understood by the service recipient and his or her parent, guardian, temporary caregiver, legal custodian, conservator, attorney-in-fact under a durable power of attorney which authorizes health care, or surrogate decision-maker, as appropriate. When necessary, the facility must provide interpreters or translators.

(2) An acknowledgement, in writing, from the service recipient and the parent, guardian, temporary caregiver, or legal custodian, as appropriate, of an unemancipated child or the conservator, attorney-in-fact under a durable power of attorney which authorizes health care, or surrogate decision-maker of an adult selected under T.C.A. §§33-3-219 and 220 that he or she has been informed of the facility’s policy on the use of isolation, mechanical restraint, and physical holding restraint in an emergency safety situation. The acknowledgement must be placed in the service recipient’s record.

(3) Contact information for the Disability Law & Advocacy Center of Tennessee (DLAC) must be provided to the service recipient or his or her parent, guardian, temporary caregiver, legal custodian, conservator, attorney-in-fact under a durable power of attorney which authorizes health care, or surrogate decision-maker, as appropriate, upon admission to the facility.

Notification and/or unsuccessful attempts to notify must be documented in the service recipient's record. The parent, guardian, temporary caregiver, legal custodian, conservator, attorney-in-fact under a durable power of attorney which authorizes health care, or surrogate decision-maker, as appropriate, may choose to modify the notice requirements in a written agreement filed in the service recipient’s record. Such individuals must be provided the opportunity to participate in a discussion with appropriate staff about the episode that precipitated the use of isolation, mechanical restraint or physical holding restraint.

(5) The mental health residential treatment facility may notify other family members or significant others, with their agreement to be notified, as specified in 0940-3-8-.14, when a release has been signed by:

(a) the service recipient who is 16 years old or older, or

(b) the parent, guardian, temporary caregiver, or legal custodian, as appropriate, of an unemancipated child, or

(c) the conservator, attorney-in-fact under a durable power of attorney which authorizes health care or surrogate decision-maker of an adult selected under T.C.A. §§33-3-219 and 220.

Authority: T.C.A. §§4-4-103, 4-5-202 and 204, 33-1-302, 305, 308, and 33-3-120; 42 CFR 483.356(c), 483.356(c)(2)—(4), (d), 483.366 and 483.366(b).

0940-3-8-.16 INTERNAL REVIEWS.

(1) The mental health residential treatment facility must provide and document three types of reviews.

(a) Service Recipient Review:

1. A licensed practitioner or mental health personnel who can initiate isolation, mechanical restraint, or physical holding restraint must review the episode upon termination of the intervention with the service recipient and with his or her parent, guardian, temporary caregiver, or legal custodian, as appropriate, of an unemancipated child, or the conservator, attorney-in-fact under a durable power of attorney which authorizes health care, or surrogate decision-maker of an adult selected under T.C.A. §§33-3-219 and 220, if available. The review must occur as soon as possible, but no later than twenty-four (24) hours after termination of isolation, mechanical restraint, or physical holding restraint. The review must address the episode, any identified reasons for the behavior, and identify ways to alleviate any related trauma. Staff must document in the service recipient's record that this review took place and must include the names of staff who were present, the names of any staff excused, and any changes to the service recipient's treatment plan as a result of the review. Documentation from the review may also be maintained in the mental health residential treatment facility records.

2. If a review is clinically contraindicated, the rationale for the conclusion must be documented in the service recipient's record.

(b) Episode Review:

1. Within twenty-four (24) hours of termination of isolation, mechanical restraint, or physical holding restraint, staff must review the episode to determine the circumstances requiring the use, how it might be addressed differently, alternative techniques that might have prevented the use, any procedures that need to be implemented to prevent recurrence, and the outcome of the episode. Any injury to the service recipient or staff during the implementation or use of the isolation, mechanical restraint, or physical holding restraint must be included in the review and a plan must be developed to prevent future injuries. The review must also address any need to change the service recipient's treatment plan, opportunities for performance improvements and any need for alleviation of staff trauma associated with the episode. The staff review must include staff involved in the episode and, if possible, other staff who witnessed or have a knowledge about the episode or the service recipient. The mental health residential treatment facility supervisor
or designee may, for good cause, allow an exception to the review within twenty-four (24) hours, but the review must be concluded within five (5) business days of the episode. Staff must document in the service recipient’s record that the review occurred and must include the names of staff who were present, the names of any staff excused, and any changes to the service recipient’s treatment plan as a result of the review. Documentation from the review may also be maintained in the mental health residential treatment facility records.

Only trained staff who are qualified by education, training, and experience may train others. Staff training must include training exercises in which staff members successfully demonstrate in practice the techniques they have learned for managing emergency safety situations. Staff must be trained and demonstrate competency before assuming direct care responsibilities that include the use of isolation, mechanical restraint, or physical holding restraint. The mental health residential treatment facility must assure that staff are trained and competent in the following areas:

(a) Upon being hired and every six months thereafter:

4. Techniques to identify staff and service recipient behaviors, events, and environmental factors that may trigger emergency safety situations; and

5. Use of devices, materials, and/or equipment approved by the mental health residential treatment facility as mechanical restraints.

**AMENDMENTS**

Rule 0480-1-.03, Necessity of Licensure is amended by adding the following language as new paragraph (4):

(4) Use of Titles - Any person who possesses a valid, unsuspended and unrevoked license issued by the Board has the right to use the title “Licensed Dispensing Optician” and to practice as a dispensing optician as defined in T.C.A. §§ 63-14-102. Violation of this rule regarding use of titles shall subject the licensee to disciplinary action.

**Authority:** T.C.A. §§ 4-5-202, 4-5-204, 63-14-101, 63-14-102, 63-14-103, 63-14-104, and Public Chapter 467 of the Public Acts of 2005.

Rule 0480-1-.04, Qualifications for Licensure, is amended by deleting in its entirety the last sentence of subparagraph (3) (c) which is immediately following part (3) (c) 11., and is further amended by adding the following language as new subparagraph (3) (d):

(3) (d) If the applicant holds an unrestricted dispensing optician license in another state, the length of time for that state’s training and supervised experience requirements for initial licensure shall be considered as time toward fulfilling Tennessee’s three (3) year requirement.

**Authority:** T.C.A. §§ 4-5-202, 4-5-204, 63-14-101, and 63-14-103.

Rule 0480-1-.14, Apprenticeship Training Program, is amended by deleting paragraph (7) in its entirety:

**Authority:** §§ 4-5-202, 4-5-204, 63-14-101, and 63-14-103.
Rule 0480-1-.19, Board Meetings, Officers, Consultants, Records and Declaratory Orders, is amended by deleting the catchline in its entirety and substituting instead the following language, and is further amended by adding the following language as new paragraph (8), so that as amended, the new catchline and the new paragraph (8) shall read:

0480-1-.19 BOARD MEETINGS, OFFICERS, CONSULTANTS, DECLARATORY ORDERS, AND SCREENING PANELS.

(8) Screening Panels - The Board adopts, as if fully set out herein, Rule 1200-10-1-.13, of the Division of Health Related Boards and as it may from time to time be amended, as its rule governing the screening panel process.

Rule 0480-1-.20, Advertising, is amended by deleting the language of the rule in its entirety and substituting instead the following language as new paragraphs (1) through (6):

(1) Policy Statement. The lack of sophistication on the part of many of the public concerning opticianry services, the importance of the interests affected by the choice of a dispensing optician and the foreseeable consequences of unrestricted advertising by dispensing opticians which is recognized to pose special possibilities for deception, require that special care be taken by dispensing opticians to avoid misleading the public. The dispensing optician must be mindful that the benefits of advertising depend upon its reliability and accuracy. Since advertising by dispensing opticians is calculated and not spontaneous, reasonable regulation designed to foster compliance with appropriate standards serves the public interest without impeding the flow of useful, meaningful, and relevant information to the public.

(2) Definitions

(a) Advertisement. Informational communication to the public in any manner designed to attract public attention to the practice of a dispensing optician who is licensed to practice in Tennessee.

(b) Licensee - Any person holding a license to practice as a dispensing optician in the State of Tennessee. Where applicable this shall include partnerships and/or corporations.

(c) Material Fact - Any fact which an ordinary reasonable and prudent person would need to know or rely upon in order to make an informed decision concerning the choice of practitioners to serve his or her particular needs.

(d) Bait and Switch Advertising - An alluring but insincere offer to sell a product or service which the advertiser in truth does not intend or want to sell. Its purpose is to switch consumers from buying the advertised service or merchandise, in order to sell something else, usually for a higher fee or on a basis more advantageous to the advertiser.

(e) Discounted Fee - Shall mean a fee offered or charged by a person or product or service that is less than the fee the person or organization usually offers or charges for the product or service. Products or services expressly offered free of charge shall not be deemed to be offered at a "discounted fee".
(3) Advertising Fees and Services

(a) Fixed Fees - Fixed fees may be advertised for any service. It is presumed unless otherwise stated in the advertisement that a fixed fee for a service shall include the cost of all professional recognized components within generally accepted standards that are required to complete the service.

(b) Range of Fees. A range of fees may be advertised for services and the advertisement must disclose the factors used in determining the actual fee, necessary to prevent deception of the public.

(c) Discount Fees. Discount fees may be advertised if:

1. The discount fee is in fact lower than the licensee's customary or usual fee charged for the service; and

2. The licensee provides the same quality and components of service and material at the discounted fee that are normally provided at the regular, non-discounted fee for that service.

(d) Related Services and Additional Fees. Related services which may be required in conjunction with the advertised services for which additional fees will be charged must be identified as such in any advertisement.

(e) Time Period of Advertised Fees. Advertised fees shall be honored for those seeking the advertised services during the entire time period stated in the advertisement whether or not the services are actually rendered or completed within that time.

1. If no time period is stated in the advertisement of fees, the advertised fee shall be honored for thirty (30) days from the last date of publication or until the next scheduled publication whichever is later whether or not the services are actually rendered or completed within that time.

(4) Advertising Content. The following acts or omissions in the context of advertisement by any licensee shall constitute unethical and unprofessional conduct, and subject the licensee to disciplinary action pursuant to T.C.A. §63-14-104.

(a) Claims that the services performed, personnel employed, materials or office equipment used are professionally superior to that which is ordinarily performed, employed, or used, or that convey the message that one licensee is better than another when superiority of services, personnel, materials or equipment cannot be substantiated.

(b) The misleading use of an unearned or non-health degree in any advertisement.

(c) Promotion of professional services which the licensee knows or should know is beyond the licensee's ability to perform.

(d) Techniques of communication which intimidate, exert undue pressure or undue influence over a prospective client.

(e) Any appeals to an individual's anxiety in an excessive or unfair manner.
(f) The use of any personal testimonial attesting to a quality of competency of a service or treatment offered by a licensee that is not reasonably verifiable.

(g) Utilization of any statistical data or other information based on past performances for prediction of future services, which creates an unjustified expectation about results that the licensee can achieve.

(h) The communication of personal identifiable facts, data, or information about a patient without first obtaining patient consent.

(i) Any misrepresentation of a material fact.

(j) The knowing suppression, omission or concealment of any materials fact or law without which the advertisement would be deceptive or misleading.

(k) Statements concerning the benefits or other attributes of procedures or products that involve significant risks without including:

1. A realistic assessment of the safety and efficiency of those procedures or products; and

2. The availability of alternatives; and

3. Where necessary to avoid deception, descriptions or assessment of the benefits or other attributes of those alternatives.

(l) Any communication which creates an unjustified expectation concerning the potential results of any treatment.

(m) Failure to comply with the rules governing advertisement of fees and services, or advertising records.

(n) The use of “bait and switch” advertisements. Where the circumstances indicate “bait and switch” advertising, the Board may require the licensee to furnish data or other evidence pertaining to those sales at the advertised fee as well as other sales.

(o) Misrepresentation of a licensee's credentials, training, experience, or ability.

(p) Failure to include the corporation, partnership or individual licensee's name, address, and telephone number in any advertisement. Any corporation, partnership or association which advertises by use of a trade name or otherwise fails to list all licensees practicing at a particular location shall:

1. Upon request provide a list of all licensees practicing at that location; and

2. Maintain and conspicuously display at the licensee's office, a directory listing all licensees practicing at that location.

(q) Failure to disclose the fact of giving compensation or anything of value to representative of the press, radio, television or other communicative medium in anticipation of or in return for any advertisement (for example, newspaper article) unless the nature, format or medium of such advertisement make the fact of compensation apparent.
(r) After thirty (30) days of the licensee’s departure, the use of the name of any licensee formerly practicing at or associated with any advertised location or on office signs or buildings. This rule shall not apply in the case of a retired or deceased former associate who practiced in association with one or more of the present occupants if the status of the former associate is disclosed in any advertisement or sign.

(s) Stating or implying that a certain licensee provides all services when any such services are performed by another licensee.

(t) Directly or indirectly offering, giving, receiving, or agreeing to receive any fee or other consideration from a third party for the referral of a patient in connection with the performance of professional services.

(5) Advertising Records and Responsibility

(a) Each licensee who is a principal partner, or officer of a firm or entity identified in any advertisement, is jointly and severally responsible for the form and content of any advertisement. This provision shall also include any licensed professional employees acting as an agent of such firm or entity.

(b) Any and all advertisement are presumed to have been approved by the licensee named therein.

(c) A recording of every advertisement communicated by electronic media, and a copy of every advertisement communicated by print media, and a copy of any other form of advertisement shall be retained by the licensee for a period of two (2) years from the last date of broadcast or publication and be made available for review upon request by the Board or its designee.

(d) At the time any type of advertisement is placed, the licensee must possess and rely upon information which, when produced, would substantiate the truthfulness of any assertion, omission or representation of material fact set forth in the advertisement or public information.

(6) Severability. It is hereby declared that the sections, clauses, sentences and part of these rules are severable, are not matters of mutual essential inducement, and any of them shall be rescinded if these rules would otherwise be unconstitutional or ineffective. If any one or more sections, clauses, sentences or parts shall for any reason be questioned in court, and shall be adjudged unconstitutional or invalid, such judgment shall not affect, impair or invalidate the remaining provisions thereof, but shall be confined in its operation to the specific provision or provisions so held unconstitutional or invalid, and the in applicability or invalidity of any section, clause, sentence or part in any one or more instance shall not be taken to affect or prejudice in any way its applicability or validity in any other instance.

Only persons who are eligible to form or become members or holders of financial rights of a podiatric professional limited liability company as limited by T.C.A. § 48-248-401 and subparagraph (2) (b) of this rule shall be allowed to serve as a director, or serve on the Board of Governors of a PPLLC.

1. Engaging in, or allowing another podiatrist member, officer, manager, director, or governor, while acting on behalf of the PPLLC, to engage in, podiatric practice in any area of practice or specialty beyond that which is specifically set forth in the articles of organization may be a violation of the professional ethics enumerated in Rule 1155-2-.13 and/or Tennessee Code Annotated, Section 63-3-119 (a) (4).

2. Nothing in these rules shall be construed as prohibiting any health care professional licensed pursuant to Tennessee Code Annotated, Title 63 from being an employee of or a contractor to a PPLLC.

3. Nothing in these rules shall be construed as prohibiting a PPLLC from electing to form for the purposes of rendering professional services within two (2) or more professions or for any lawful business authorized by the Tennessee Business Corporations Act so long as those purposes do not interfere with the exercise of independent podiatric judgment by the podiatrist members or holders of financial rights, governors, officers, managers, employees or contractors of the PPLLC who are practicing podiatry as defined by Tennessee Code Annotated, Section 63-3-101.

4. Nothing in these rules shall be construed as prohibiting a podiatrist from being a member of any type of professional limited liability company other than a PPLLC so long as such membership interests do not interfere with the exercise of independent podiatric judgment by the podiatrist while practicing podiatry as defined by Tennessee Code Annotated, Section, Section 63-3-101.

5. All PPLLCs formed in Tennessee pursuant to Tennessee Code Annotated, Section 48-248-104 or Public Chapter 286 of the Public Acts of 2005, to provide services only in states other than Tennessee shall annually file with the Board a notarized statement that they are not providing services in Tennessee.

(b) The notice of violation shall state with reasonable specificity the nature of the alleged violation(s).

(c) The notice of violation shall state that the PPC and/or PPLLC must, within sixty (60) days after service of the notice of violation, correct each alleged violation or show to the Board’s satisfaction that the alleged violation(s) did not occur.

(d) The notice of violation shall state that, if the Board finds that the PPC and/or PPLLC is in violation, the attorney general will be notified and judicial dissolution proceedings may be instituted pursuant to Tennessee Code Annotated, Title 48.

(e) The notice of violation shall state that proceedings pursuant to this section shall not be conducted in accordance with the contested case provisions of the Uniform Administrative Procedures Act, compiled in Title 4, Chapter 5 but that the PPC and/or PPLLC, through its agent(s), shall appear before the Board at the time, date, and place as set by the Board and show cause why the Board should not notify the attorney general and reporter that the organization is in violation of the Act or these rules. The Board shall enter an order that states with reasonable particularity the facts describing each violation and the statutory or rule reference of each violation. These proceedings shall constitute the conduct of administrative rather than disciplinary business.

(f) If, after the proceeding the Board finds that a PPC and/or PPLLC did violate any provision of Title 48, Chapters 101 and/or 248 or these rules, and failed to correct said violation or demonstrate to the Board’s satisfaction that the violation did not occur, the Board shall certify to the attorney general and reporter that it has met all requirements of either Tennessee Code Annotated, Sections 48-101-624 (1) - (3) and/or 48-248-409 (1)-(3) and/or Public Chapter 286 of the Public Acts of 2005.

(5) The authority to own shares of stock or be members or holders of financial rights in a PPC or a PPLLC granted by statute or these rules to professionals not licensed in this state shall in no way be construed as authorizing the practice of any profession in this state by such unlicensed professionals.

Commercial fishing gear is prohibited within 1,000 yards downstream of any TVA or Corps of Engineers Dam, within 300 yards of any commercial boat dock or resort, or within 100 yards of the mouth of any stream, river, or inlet at any time. For purposes of this proclamation, wingwalls and lock walls are considered to be a part of the "dam", and measurements will be made from their downstream end.

F. No catfish less than 8 inches in length may be kept alive. The commercial harvest of catfish greater than 34 inches in length is prohibited statewide.

G. Gill nets, trammel nets, turtle traps, and trottlines must be run at least once every 24 hour period. Other types of commercial fishing gear must be run at least once every 72 hour period.

I. A fish seine may be used in private waters and in waters which are replenished by overflows from the Mississippi, Tennessee, Obion, Hatchie, Wolf, Loosahatchie, and Forked Deer rivers, but which during the dry season of the year have no outlet to these rivers. Fish seines as defined in this proclamation may be used in the dewatering areas of Kentucky Reservoir.

J. No commercial fishing gear shall be set so as to extend more than three-quarters (3/4) across any stream, river, chute, or embayment.

K. Paddlefish larger than the appropriate minimum eye to fork length limit can be blocked (with the tail remaining on the fish) prior to sale if the fish also meets the appropriate minimum block length (as measured along side of the fish from the fork of the tail to the edge of the skin behind the gill arch) limit. The minimum block length limit for each minimum eye to fork length limit is reported in the table below. Blocked fish must be larger than both the minimum eye-to-fork length limit and the minimum block length limit. Prior to sale to an in-state wholesale fish dealer’s business or prior to being marketed out-of-state, paddlefish carcasses may not be altered in such a manner that the eye to fork length or the block length of the fish can not be determined.

SECTION IV. COMMERCIAL FISHING GEAR

Legal gear types are trotlines, slat baskets, hoop nets, fyke nets, pound nets, trap nets, trammel nets, seines, turtle traps, and cast nets.

1. Slat Basket

A slat basket is defined as a device used for taking of commercial fish only. Slat baskets may have only one outside funnel opening, and may be made of wood, plastic, or cane slats or splits which are placed lengthwise and so constructed that there must be a minimum of four openings in the catching area, each being at least 1½" wide and 6" long.

2. Hoop Net

A barrel shaped net made of synthetic cotton, linen, or nylon, and supported by hoops. A hoop net is also known as a barrel net, set net, funnel net, and trap net. One or more throats are attached inside the hoop structure. Legal mesh size of hoop nets is one (1) inch or smaller or three (3) inches or larger on the square. See Section III. for special restriction on 1" or smaller sizes.

3. Fyke Net, Trap Net and Pound Net

A fyke net, also known as a wing net, is a hoop net to which as many as three (3) wings or leads may be attached. Trap nets or pound nets which have rectangular or box shaped traps shall also be legal by this definition. The wings or leads are equipped with floats and sinkers, and the webbing of the wings shall be constructed of twine not smaller than Number 7 in nylon or Number 9 in cotton or linen. The maximum length of each wing is 50 feet. The legal mesh size of fyke nets and wings or leads is one (1) inch or smaller or three (3) inches or larger on the square. See Section III. for restriction on 1" or smaller sizes.

4. Trammel Net

A trammel net is defined as a net having three (3) webs (nets) hung to a single top (float) and bottom (lead) line. The two outside webs are called walling, and the inside web is called webbing. The inside webbing shall have a mesh size of not less than three (3) inches on the square. Effective April 24, 2003, webbing with square mesh greater than 4.0 and less than 6.0 inches is prohibited except on the Mississippi River where webbing with square mesh greater than 4.0 and less than 5.0 inches is prohibited. The outside walling shall have a mesh size of not less than six (6) inches on the square. The maximum mesh size of the outside walling shall consist of vertical ties or hobbles on each side of the webbing at six (6) foot intervals along the float and lead line. A net may not be hobbled to less than two thirds the height of the net. Maximum length of a trammel net is three hundred (300) yards. Trammel nets must be fished in a stationary manner except in the Mississippi River.

5. Gill Net

A gill net is defined as a single net attached to float and lead lines. Gill nets must have a minimum mesh size of 3 inches or greater. Gill nets with square mesh greater than 4.0 and less than 6.0
inches are prohibited except on the Mississippi River where square mesh greater than 4.0 and
less than 5.0 inches are prohibited with a minimum mesh size of three (3) inches on the square.
The maximum length of a gill net is three hundred (300) yards. Gill nets must be fished in a
stationary manner except in the Mississippi River.

6. Fish Seine

A fish seine consists of a float and lead line to which netting is attached. The netting of the seine
shall be constructed of twine not smaller than Number 7 nylon or synthetic fiber or Number 9 cot-
ton or linen. The mesh size of seines shall be three (3) inches or larger on the square. Seines
must be constantly attended, and may not be fished in a stationary manner.

7. Turtle Traps

A turtle trap is defined as a trap made of linen or cotton netting, wood or cane slats or strips, wire,
or other similar materials with a minimum mesh size of three (3) inches on the square. Such traps
must be constructed in a way as to permit the escape of fish through the three (3) inch openings.
Turtle traps as defined herein may only be used in waters open to commercial fishing. Turtle
traps must be set so that a portion of the catching area is positioned above the water.

8. Cast Net

A cast net is defined as a net having a maximum radius of ten (10) feet and a mesh size (square
measure) of not less than one-fourth (¼) inch and not greater than one (1) inch.

9. Trotline

A main line with drop lines to which single hooks are attached and baited in order to catch fish.
Such drops must be at least 24 inches apart.

10. Dip Net

A dip net is a net constructed from natural or synthetic fibers which is attached to a frame that
is attached to a pole. A dip net may only be used to commercially harvest turtles from Reelfoot
Wildlife Management Area.

SECTION V. REPORT REQUIREMENTS

Commercial fishers and wholesale fish dealers are required submit monthly reports to the Tenne-
see Wildlife Resources Agency as instructed. Commercial fishers are required to provide TWRA
with requested information and samples for all fish or turtles (or parts thereof) which they harvest
from Tennessee waters or import into Tennessee. Requested information shall be reported on
forms provided by TWRA and these forms must be completed within 24 hours of harvest. Com-
mercial fishers must notify TWRA on the appropriate form if they did not harvest fish or turtles
(or parts thereof) during a month. Wholesale fish dealers are required to provide TWRA with
requested information and samples for all fish or turtles (or parts thereof) which they receive from
commercial fishers, wholesale fish dealers, or nonresident equivalents. Wholesale fish dealers
must indicate the quantity of fish or turtles (or parts thereof) that they receive from a commercial
fisher on a receipt issued by the commercial fisher. Wholesale fish dealers must sign and date
these receipts within 24 hours of receiving the product. Wholesale fish dealers must satisfy the
commercial fishing reporting requirements as instructed by TWRA for nonresidents who supply
them with fish or turtles (or parts thereof) harvested out-of-state. Wholesale fish dealers must notify TWRA on the appropriate form if they did not receive fish or turtles (or parts thereof) during a month. Commercial fishers and wholesale fish dealers must retain a copy of all receipts and forms for a period of two years, and make them available for inspection by TWRA. Commercial fishers and wholesale fish dealers must contact the Fisheries Management Division within 5 days upon purchasing a license and request the required forms.

Commercial fishers importing or exporting commercial fish or turtles (or parts thereof) into or out of Tennessee must have bills of laden denoting the quantity of product, name and address of supplier, name of water body from which product was harvested, and date of import/export. A copy of the bill of laden must be in the possession of the person importing or exporting the product. Commercial fishers must retain a copy of each bill of laden for a period of two years, and make it available for inspection by TWRA.
