 - (b) Be issued a temporary permit as described herein if the Commission determines that the applicant's license does not meet the requirements for substantial equivalency, but that the applicant could perform additional acts, including—but not limited to—education, training, or experience, in order to meet the requirements for the license to be substantially equivalent. In that case, the Commission may issue a temporary permit upon application and payment of all fees required for issuance of a regular license of the same type which shall allow such person to perform services as if fully licensed for a set period of time that is determined to be sufficient by the Commission for the applicant to complete such requirements.
 1. After completing those additional requirements and providing the Commission with sufficient proof thereof as may be required, a full license shall be issued to the applicant with an issuance date of the date of the original issuance of the temporary permit and an expiration date as if the full license had been issued at that time.
 2. A temporary permit shall be issued for a period of less than the length of a renewal cycle for a full license.
 3. A temporary permit shall expire upon the date set by the Commission and shall not be subject to renewal except through the timely completion of the requirements for substantial equivalency as required by the Commission or by an extension of time granted for good cause by the Commission.
 4. Should an extension to a temporary permit cause the permit to be in effect longer than the renewal cycle of a full license, then the holder of the temporary permit shall file a renewal application with such documentation and fees, including completion of continuing education, as are required by the Commission for all other renewals of a full license of the same type.
- (2) Military education, training, or experience completed by a person described at T.C.A. § 4-3-1304(d)(1)(B)(ii)(a)–(c) shall be accepted toward the qualifications, in whole or in part, to receive any license issued by the Commission under the Division of Regulatory Boards if such military education, training or experience is determined by the Commission to be substantially equivalent to the education, training, or experience required for the issuance of such license.

 - (a) Any licensee who is a member of the national guard or a reserve component of the armed forces of the United States called to active duty whose license expires during the period of activation shall be eligible to be renewed upon the licensee being released from active duty without:
